

**Dr. D. Y. PATIL VIDYAPEETH**  
**FACULTY OF ALLIED MEDICAL SCIENCES**  
**ACADEMIC REGULATIONS**

**BACHELOR OF PHYSIOTHERAPY (BPT)**

**PREAMBLE:**

The Bachelor of Physiotherapy (BPT) undergraduate degree course is a 4-year and 6 months (8 semesters & 6 months internship) fulltime program. The program is generic in nature and has a component of additional learning of one area leading to another area with choice based study in the final year to focus the career development based on his/her interest. The program focuses on overall development of the student including language and soft skill, emergency care and professional ethics. Psychosomatic aspects of training are a component through all the areas.

**NOMENCLATURE:**

The course will be referred to as a Bachelor of Physiotherapy (BPT).

**OBJECTIVES:**

At the end of the BPT programme, the graduate shall:

- Acquire the knowledge of foundation courses like Human Anatomy, Human Physiology, Exercise Therapy and Electrotherapy along with the basic medical subjects which will provide a strong foundation for their practice of Physiotherapy.
- Develop the required skills & techniques of physiotherapy to assess & treat various physical and functional disorders of the human body.
- Acquire the attitude to practice the profession with moral and ethical values.
- Have the interests for providing physiotherapy services to the needy in the community.
- Inculcate the various skills in patient care handling including communication skills, confidence, clinical reasoning, counseling and research. .

**ELIGIBILITY FOR ADMISSION:**

Eligibility of a candidate for admission to Bachelor of Physiotherapy programme will be according to the regulations for admission decided by Dr.D.Y.Patil Vidyapeeth, Pune.

**DURATION OF THE PROGRAM:**

The duration of Bachelor of Physiotherapy (BPT) programme shall be of four academic years (8 semesters) and six months of Compulsory Rotatory Internship. It shall have 8 semesters each having a span of 20 weeks of working, of which the teaching and learning program shall not be less than 16 weeks of course duration ( 672 clock hours) excluding the time scheduled for examination and evaluation process of the university and college. It includes a 6 months (24 weeks) internship leading to degree that equips the student with analytical and hands-on skills. Each academic year shall comprise of two semester viz. Odd and Even semesters. Odd semesters shall be from July/August to December and Even Semesters shall be from January to May/June.

### **MEDIUM OF INSTRUCTION:**

English shall be the medium of instruction for all the courses of study and for the examinations

### **FACULTY/STUDENT RATIO:**

The teacher: student ratio should be such that the number of teachers to the number of students admitted per year is 1:5.

### **CLINICAL TRAINING OUTLINE OF THE COURSE:**

Clinical training comprises all of the formal and practical "real-life" learning experiences provided for students to apply classroom knowledge and skills in the clinical environment. Experiences would include those of short and long duration (Supervised Clinical Training & Internships) and those that provide a variety of learning experiences (e.g. rotations on different units within the same practice setting, rotations between different practice settings within the health care system) to include comprehensive care of patients across the life span and related activities. Each student will be under the supervision of a faculty at the clinical education site who directly instructs and supervises students during their clinical learning experiences.

### **ATTENDANCE**

A student must have a minimum of 80% attendance to be eligible to take up the examinations. Only those students who have pursued a regular prescribed course of study for the semester will be allowed to appear in the University Examinations that are held at the end of their respective semesters.

### **CONDONATION OF ATTENDANCE**

There shall be no condonation of attendance in graduate studies. (However 5% compensation shall be permitted with the discrete permission of the authorities in case of Epidemic illness only.)

### **EXAMINATIONS AND ASSESSMENT**

1. The examination for the BPT degree will consist of both formative and summative pattern: Written assignment as required or stipulated by the teacher, Clinical, oral, and practical examinations as the case maybe.
2. For the course subjects, two internal assessment examinations (one periodical & one preliminary examination) shall be conducted by the faculty at specified intervals, during the course of the semester, will be calculated and simplified for 20% of the final total of the University marks and submitted to the Head of the institution for including in the University examination.
3. For the Supervised Clinical/Practical Training of the respective semester, student should complete the assignments, records, journals, case submissions, case presentations, as applicable per subject. The SPT/SCT shall carry 5 marks and submitted to the Head of the institution for including in the University practical examination.
4. Student should pass in the Internal Assessment exams with 35 % to appear for the University examinations. Continuous clinical assessment will be carried out though out the semester.

### **CRITERIA FOR PASSING UNIVERSITY EXAMINATION**

To pass the University Examination,

1. A candidate must pass in two heads of passing i.e. Theory and Practical separately at the same time.
2. In the Theory Examination the Candidate must obtain 50 % of the total Marks to pass theory examination irrespective of the parts.

3. To pass in practical exam, candidate must obtain 50% of total marks to pass practical exam.
4. A candidate must obtain an aggregate of 50 % to pass in the respective subject(s).

#### **RULES FOR ATKT**

The candidate shall be promoted to subsequent semester (from I semester to II semester, II semester to III semester, III semester to IV semester, from IV semester to V semester, V semester to VI semester, VI semester to VII semester, VII semester to VIII semester,) even if he/she fails in one or two subjects in the current semester of study. However, he/she must pass in these subjects within six months. To appear for subsequent examinations he/she must pass in all subjects of the previous semester. (ie, a candidate shall be promoted from I semester to II semester even if he/she has failed in two subjects or less, the candidate shall be permitted to appear for both I & II semester during his/her term of second semester. However he/she shall not be permitted to appear for the III semester unless he/she completely clears the first semester, this continues for rest of the semesters). A candidate failing in more than two subjects will not be permitted to proceed to next class. It is mandatory for the candidate to pass in all subjects of the previous odd semester to be eligible for the next odd semester, and to pass in all subjects of the previous even semester to be eligible for the next even semester. The candidate shall be eligible for internship program only after successful completion of the VIII semester.

#### **RULES FOR GRACE MARKS**

The grace marks up to a maximum of five may be awarded to a student who has failed only in one subject but has passed in all other subjects. These five marks shall be distributed in different heads of passing of that subject. Provided that these grace marks shall be awarded only if the student passes after awarding these marks. (Refer clause 59, Bye-laws of Dr. D. Y. Patil Vidyapeeth, Pune.).

#### **SCORING – THE CBCS SYSTEM**

All Programmes mention shall run on Choice Based Credit System (CBCS). It is an instructional package developed to suit the needs of students to keep pace with the developments in higher education and the quality assurance expected of it in the light of liberalization and globalization in higher education.

#### **COURSE**

Each Course (subject) shall be designed under lectures / tutorials / laboratory or field work / seminar / practical training / Assignments / Term paper or Report writing etc., to meet effective teaching and learning needs.

#### **BIOETHICS IN THE CURRICULUM.**

It is the study of the typically controversial ethical issues emerging from new situations and possibilities brought about by advances in biology and medicine. It is also moral discernment as it relates to medical policy and practice. Bioethicists are concerned with the ethical questions that arise in the relationships among life-sciences, biotechnology, medicine, politics, law, and philosophy. It also includes the study of the more commonplace questions of values ("the ethics of the ordinary") which arise in primary care and other branches of medicine. The curriculum does not have complete course, but is a source of inspiration. The course content should not be treated as a comprehensive curriculum in bioethics. It is recognized that the content of the core curriculum does not necessarily cover all aspects of bioethics. Traditional issues that have not been included could be incorporated as examples that are pertinent to one or several of the Declaration's principles within the curriculum's framework.

## **RATIONALE FOR INTRODUCTION OF CBCS**

The UGC while outlining the several unique features of the Choice-Based Credit System (CBCS) has, in fact, given in a nutshell, the rationale for its introduction. Among the features highlighted by the UGC are:

- Enhanced learning opportunities, ability to match learners' scholastic needs and aspirations, inter-institution transferability of learners (following the completion of a semester),
  - Improvement in educational quality and excellence,
  - Flexibility for working learners to complete the programme over an extended period of time,
  - Standardization and comparability of educational programmes across the country, etc.
- Some of the specific advantages of using the Credit system as outlined in the available literature on the topic are as listed below:

## **ADVANTAGES OF THE CREDIT SYSTEM**

- Represents a much-required shift in focus from teacher-centric to learner-centric education since the workload estimated is based on the investment of time in learning, not in teaching.
- Helps to record course work and to document learner workload realistically since all activities are taken into account - not only the time learners spend in lectures or seminars but also the time they need for individual learning and the preparation of examinations etc.
- Segments learning experience into calibrated units, which can be accumulated in order to gain an academic award.
- Helps self-paced learning. Learners may undertake as many credits as they can cope with without having to repeat all the courses in a given semester if they fail in one or more courses.
- Alternatively, they can choose other courses and continue their studies.
- 'Learner Autonomy'.
- Makes education more broad-based. One can take credits by combining unique combinations.
- Credits earned at one institution can be transferred to another.
- Helps in working out twinning programmes.
- Is beneficial for achieving more transparency and compatibility between different educational structures.
- A credit system can facilitate recognition procedures as well as access to higher education for non-traditional learners

## **GRADING:**

The total of the internal evaluation marks and final University examination marks in each course will be converted to a letter grade on to confirm as per the following scheme as recommended by UGC:

## Letter Grades and Grade Points:

Letter Grades	Grade Points	% of marks
O (Outstanding)	10	80 and above
A+(Excellent)	9	75-79
A(Very Good)	8	70-74
B+(Good)	7	65-69
B(Above Average)	6	60-64
C(Average)	5	55-59
P(Pass)	4	50-54
F(Fail)	0	<50
Ab (Absent)	0	0

A student obtaining Grade F (or) Grade point '0' shall be considered failed and will be required to reappear in the examination.

## COMPUTATION OF SGPA AND CGPA:

The UGC recommends the following procedure to compute the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

- The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e

$$\text{SGPA} (S_i) = \frac{\sum(C_i \times G_i)}{\sum C_i}$$

where  $C_i$  is the number of credits of the  $i$ th course and  $G_i$  is the grade point scored by the student in the  $i$ th course.

- The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

$$\text{CGPA} = \frac{\sum(C_i \times S_i)}{\sum C_i}$$

where  $S_i$  is the SGPA of the  $i$ th semester and  $C_i$  is the total number of credits in that semester.

- The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

### Illustration of Computation of SGPA and CGPA and Format for Transcripts

#### i. Illustration for computation of SGPA for 1 semester

Course	Credit	Grade Letter	Grade Point	Credit Point (Credit x Grade)
Course 1	7	B+	7	7X7=49
Course 2	6	A	8	6X8=48
Course 3	3	B	6	3X6=18
Course 4	10	A+	9	10X9=90
<b>Total</b>	<b>26</b>			<b>205</b>

Thus,  $\text{SGPA} = 205/26 = 7.884$

i. *Illustration for computation of CGPA*

<i>Semester 1</i>	<i>Semester 2</i>	<i>Semester 3</i>	<i>Semester 4</i>	<i>Semester 5</i>	<i>Semester 6</i>
<i>Credit:20</i>	<i>Credit:22</i>	<i>Credit:25</i>	<i>Credit:26</i>	<i>Credit:26</i>	<i>Credit:25</i>
<i>SGPA:6.9</i>	<i>SGPA:7.8</i>	<i>SGPA:5.6</i>	<i>SGPA:6.0</i>	<i>SGPA:6.3</i>	<i>SGPA:8.0</i>

$$\text{Thus, CGPA} = \frac{20 \times 6.9 + 22 \times 7.8 + 25 \times 5.6 + 26 \times 6.0 + 26 \times 6.3 + 25 \times 8.0}{144} = 6.73$$

144

**INTERNSHIP:**

There shall be six months (24 weeks) of Internship after successfully completing the eighth semester examination for candidates and had been declared to have passed the examination in all the subjects. Internship shall be done in any hospital recognized by the Vidyapeeth. No candidate shall be awarded degree certificate without successfully completing six months of Internship.

The Internship should be rotatory and cover clinical branches concerned with Physiotherapy such as Orthopaedics, Cardiothoracic including ICU, Neurology, Paediatrics, General Medicine, General Surgery, Obstetrics and Gynaecology both at the inpatient and outpatient services. On completion of all postings, the duly completed logbooks will be submitted to the Principal/Head of program to be considered as having successfully completed the internship program. The student has to do the project in the internship as part of the curriculum of BPT course and submit it for the fulfillment of the degree which shall be evaluated by two examiners. Passing from the project work is mandatory for completing the internship program.

**AWARD OF DEGREE :**

Every student of the programme who fulfils the following criteria will be eligible for the award of the degree provided

- He/She should have earned at least minimum required credits as prescribed in course structure,
- He/She should have cleared all internal and external evaluation components in every course,
- He/She should have successfully completed the internship with project work.
- He/She should have secured a minimum CGPA of 4.00 at the end of the programme BPT.

**AWARD OF CLASS:**

The class awarded to a student in the programme is decided by the final CGPA as per the following scheme:

Distinction: CGPA  $\geq$  7.50

First class: CGPA of 6.50 – 7.49

Second Class: CGPA of 5.00 to 6.49

**TRANSCRIPT:**

The transcript issued to the student at the time of leaving the University will contain a consolidated record of all the courses taken, credits earned, grades obtained, SGPA, CGPA, class obtained, etc.

**CLASSIFICATION OF COURSE IN UG DEGREE PROGRAM:**

Sem.	Foundation course	Core course	Allied course	Enhancement course

### SCHEME OF EXAMINATION

Evaluation Pattern					
Written		Total	Practical		Total
IA	Final exam	Final exam	IA	Final exam	Final exam
10	40	50	10	40	50

#### Periodical Examination:

- Written Examination:-20 MCQ for 10 marks, 20 minutes
- Practical Examination:- 10 marks

#### Preliminary Examination / University (Final) Examination

- **Written Examination ( 40 marks)**

Sec A	MCQ	10x1=10 marks
Sec B	1. Short Notes - Answer any 5 out of 6	5x2=10 marks
	2. Short answer questions - Answer any 2 out of 3	2x5=10 marks
	3. Long Answer Questions - Answer any 1 out of 2	1x10=10 marks

- **Practical Examination ( 40 marks)**

Sr.No.		Marks
1	<b>Spots</b>	<b>10x2=20 marks</b>
	i. 3 Spots based on Urogenital/Reproductive/special senses/Cardiovascular system	3x2=06 marks
	ii. 2 Spots based on Soft part of Thorax/neck	2x2=4 marks
	iii. 5 Spots based on upper extremity	5x2=10 marks
2.	<b>Viva (15 marks) + Journal ( 5 marks)</b>	<b>15+5=20 marks</b>
	i. Soft Parts	
	ii. Osteology	

- **SUPERVISED PRACTICAL TRAINING:**

- Journals marks = 5 marks

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the Preliminary examination .

Internal Assessment Marks

Theory / Practical:-

Periodical exam	= 10 marks
Prelim exam	= 40 marks
Total	= 50 marks

The total shall be Converted to 10 marks (50/5=10)

	<b>Desirable to know</b> <ul style="list-style-type: none"> <li>• Applied aspects – Myasthenia gravis, Rigor mortis</li> <li>• Reaction of degeneration</li> <li>• Muscle disorders</li> </ul>	3	-
3	<b>Haematology</b>	<b>8</b>	-
	<b>Must know</b> <ul style="list-style-type: none"> <li>• Composition and functions of blood</li> <li>• Red blood cell – morphology, formation, normal count, functions, physiological and pathological variation.</li> <li>• White blood cell – morphology, classification, properties, functions, physiological &amp; pathological variation</li> <li>• Haemoglobin – basic chemistry, fate and functions.</li> <li>• Immunity – definition, classification, concept of antigen &amp; antibody</li> <li>• Haemostasis – steps, role of platelets</li> <li>• Blood groups – A,B,O,AB and Rh system</li> <li>• Anemias, ESR &amp; PCV</li> </ul>	4	-
	<b>Desirable to know</b> <ul style="list-style-type: none"> <li>• Plasma proteins</li> <li>• Anticoagulants</li> <li>• Blood transfusion</li> </ul>	3	-
	<b>Nice to know</b> <ul style="list-style-type: none"> <li>• Haemophilia</li> <li>• Thrombocytopenia</li> </ul>	1	-
4	<b>Cardiovascular system</b>	<b>20</b>	-
	<b>Must know</b> <ul style="list-style-type: none"> <li>• General organization and properties of cardiac muscle</li> <li>• Origin and conduction of cardiac impulse</li> <li>• Cardiac cycle and heart sounds</li> <li>• Normal heart rate, bradycardia, tachycardia</li> <li>• Normal ECG</li> <li>• Cardiac output- normal values, physiological variations, factors affecting cardiac out- put and regulation</li> <li>• Blood pressure – normal values, measurement, determinants, short term and long term regulation</li> <li>• Regional circulation- Coronary, muscular, cerebral</li> <li>• Functions of Lymph</li> <li>• Pressure and volume changes during cardiac cycle</li> </ul>	16	
	<b>Desirable to know</b> <ul style="list-style-type: none"> <li>• Patho-physiology of circulatory shock and edema</li> <li>• Hypertension, hypotension</li> </ul>	3	
	<b>Nice to know</b> <ul style="list-style-type: none"> <li>• Hemodynamic</li> </ul>	1	

<b>5</b>	<b>Respiratory system</b>	<b>18</b>	-
	<b>Must know</b> <ul style="list-style-type: none"> <li>• General organization of respiratory system</li> <li>• Mechanics of respiration – Inspiratory and expiratory muscles, intrapleural pressure, lung &amp; thoracic compliance, surfactant, lung volumes &amp; capacities.</li> <li>• Diffusion of gases</li> <li>• Transport of respiratory gases</li> <li>• Regulation of respiration</li> <li>• Outline of hypoxia (types &amp; physiological changes)</li> <li>• Acclimatization to high altitude.</li> <li>• Dead space, Ventilation/ perfusion ratio</li> <li>• Maximum breathing capacity &amp; breathing reserve</li> <li>• Pulmonary function tests.</li> </ul>	12	-
	<b>Desirable to know</b> <ul style="list-style-type: none"> <li>• Artificial respiration</li> </ul>	3	-
	<b>Nice to know</b> Asphyxia, cyanosis (types and physiological changes)	3	-
<b>6</b>	<b>Digestive System</b>	<b>8</b>	-
	<b>Must know</b> <ul style="list-style-type: none"> <li>• General organization</li> <li>• Mastication and deglutition</li> <li>• Saliva – composition, functions and regulation of salivary secretion</li> <li>• Gastric secretion – composition, mechanism, phases of secretion, regulation and functions.</li> <li>• Outline of gastric emptying and peristalsis</li> <li>• Pancreatic secretion – composition, regulation and functions.</li> <li>• Liver and gall bladder – composition and functions of bile</li> <li>• Movements and functions of small and large intestine,</li> <li>• Defecation reflex, constipation, diarrhea</li> </ul>	6	-
	<b>Nice to know</b> <ul style="list-style-type: none"> <li>• Jaundice</li> <li>• Peptic ulcer</li> </ul>	2	-

### HUMAN PHYSIOLOGY PRACTICAL

Course Content			
Topic Serial No.	Title of content	Hours of teaching/learning	
		Theory	Practical
<b>1</b>	<b>Haematology</b>	-	<b>10</b>
	Hb, RBC, WBC ,Blood groups, BT & CT		

2	<b>Properties of muscles</b>	-	<b>10</b>
	<ul style="list-style-type: none"> <li>• <b>Skeletal muscle.</b> SMC, effect of temperature, velocity of nerve conduction, fatigue, tetanus, all or none law &amp; effect of load.</li> </ul>	-	5
	<ul style="list-style-type: none"> <li>• <b>Cardiac muscle.</b> Normal cardiogram, effect of speed, temperature, Stannius ligature, all or none law &amp; incomplete tetanus, Nervous regulation of heart, vagal escape. Effect of drugs (adrenaline &amp; acetylcholine)</li> </ul>	-	5
3.	<b>Other L. Ds</b>	-	<b>12</b>
	<ul style="list-style-type: none"> <li>• Physical fitness- Cardiopulmonary efficiency tests</li> <li>• Stethography, Spirometry</li> <li>• Ergography, Perimetry</li> <li>• ECG</li> </ul>	-	

#### Text Books

Sr.No.	Title
1	Text book on Medical Physiology-By Guyton
2	Text book of physiology for physiotherapy – Prof. A. K Jain.
3	Concise Medical Physiology – Sujit K. Chowdhuri

#### Reference Books

Sr.No.	Title
1	Samson & Wrights Applied physiology.
2	Principles of Anatomy & Physiology – Tortora.
3	Textbook of Medical Physiology – Indu Khurana
4	Samson & Wrights Applied physiology.

### SCHEME OF EXAMINATION

Written		Total	Practical		Total
IA	Final exam	Final exam	IA	Final exam	Final exam
10	40	50	10	40	50

#### Periodical Examination:

- Written Examination:-20 MCQ for 10 marks, 20 minutes.
- Practical Examination:- 10 marks

#### Preliminary Examination / University ( Final) Examination

- **Written Examination ( 40 marks)**

Sec A	MCQ	10x1=10 marks
Sec B	1. Short Notes - Answer any 5 out of 6	5x2=10 marks
	2. Short answer questions - Answer any 2 out of 3	2x5=10 marks
	3. Long Answer Questions - Answer any 1 out of 2	1x10=10 marks

- **Practical Examination ( 40 marks)**

Sr.No.		Marks
1	<b>Spots</b> <ul style="list-style-type: none"> <li>• Haematology- 1</li> <li>• Graphs-2</li> <li>• Physical fitness-1</li> <li>• BP/ ECG/HR-2</li> <li>• Spirometry- 1</li> <li>• Ergography/ Stethography-1</li> <li>• Perimetry-1</li> </ul>	10x2=20
2.	<b>Viva(15 marks) + Journal (5marks)</b> -Based on Theory portion	15 +5 =20

- **SUPERVISED PRACTICAL TRAINING:**

- Journals marks = 5 marks

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination .

#### Internal Assessment Marks

Theory / Practical:-

Periodical exam	= 10 marks
Prelim exam	= 40 marks
Total	= 50 marks

The total shall be Converted to 10 marks (50/5=10)

## SCHEME OF EXAMINATION

Written		Total	Practical		Total
IA	Final exam	Final exam	IA	Final exam	Final exam
10	40	50	10	40	50

### Periodical Examination:

- Written Examination:-20 MCQ for 10 marks, 20 minutes.
- Practical Examination:- 10 marks

### Preliminary Examination / University ( Final) Examination

- **Written Examination ( 40 marks)**

Sec A	MCQ	10x1=10 marks
Sec B	1. Short Notes - Answer any 5 out of 6 2. Short answer questions - Answer any 2 out of 3 3. Long Answer Questions - Answer any 1 out of 2	5x2=10 marks 2x5=10 marks 1x10=10 marks

- **Practical Examination ( 40 marks)**

<b>S.No.</b>		<b>Marks</b>
<b>1</b>	<b>Spots</b> <ol style="list-style-type: none"> <li>1. 2 Spots based on Urogenital/Reproductive/special senses/Cardiovascular system</li> <li>2. 3 Spots based on Soft part of Thorax/neck</li> <li>3. 5 Spots based on upper extremity</li> </ol>	10x2=20
<b>2.</b>	<b>Viva + Journal</b> <ol style="list-style-type: none"> <li>1. Soft Parts</li> <li>2. Osteology</li> </ol>	15+5=20

- **SUPERVISED PRACTICAL TRAINING:**

- Journals marks = 5 marks

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination.

Internal Assessment Marks

Theory / Practical:-

Periodical exam	= 10 marks
Prelim exam	= 40 marks
Total	= 50 marks

The total shall be Converted to 10 marks (50/5=10)

Course Title :- Human Physiology-II																	
Course Code:- PT 202																	
Course Credit for Human Physiology II																	
Hours				Hrs/Wk				Credits				Evaluation Pattern

### SCHEME OF EXAMINATION

Written		Total
IA	Final exam	Final exam
10	40	50

**Periodical Examination:**

- Written Examination:-20 MCQ for 10 marks, 20 minutes.

**Preliminary Examination / University ( Final) Examination**

- **Written Examination ( 40 marks)**

Sec A	MCQ	10x1=10 marks
Sec B	1. Short Notes - Answer any 5 out of 6	5x2=10 marks
	2. Short answer questions - Answer any 2 out of 3	2x5=10 marks
	3. Long Answer Questions - Answer any 1 out of 2	1x10=10 marks

**Internal Assessment Marks**

Theory:-

Periodical exam = 10 marks

Prelim exam = 40 marks

Total = 50 marks

The total shall be Converted to 10 marks (50/5=10)

**Course Title :- Exercise Therapy- I [160 hours]**

**Course Code:- PT 204**

**Course Credit for Exercise therapy- I**

Hours				Hrs/Wk				Credits				Evaluation Pattern					
Th	Pr	SPT	Tot	Lec	Pr	SPT	Tot	Lec	Pr	SPT	Tot	Written		Total	Practical		Total
												IA	Final exam	Final exam	IA	Final exam	Final exam
64	96	96	256	4	6	6	16	4	3	2	9	20	80	100	20	80	100

**Learning Objectives:**

At the end of the course, the candidate will-

1. To define the various terms used in mechanics, Biomechanics and Kinesiology.
2. Recall the basic principles of Physics related to mechanics of movement /motion & will be able to understand the application of such principles to the simple equipment designs, and their efficacy in therapeutic gymnasium and various starting positions used in therapeutics.
3. To describe and also acquire the skill of use of various tools of the Therapeutic gymnasium.
4. To demonstrate passive movements in terms of various Anatomical planes.
5. To demonstrate various starting and derived positions.
6. Acquire the skill of application of various massage manipulations and describe the Physiological effects, therapeutic use, merits /demerits of the same.
7. Acquire a skill of assessment of sensations, superficial and deep reflexes, pulse rate/ Blood pressure, Chest expansion/respiratory rate, and limb length/girth measurement on Models.
8. To demonstrate and also acquire the skill of relaxation.
9. To describe types of Goniometer ,merits and demerits of goniometry and to demonstrate and acquire the skill of measuring ROM with goniometer.
10. To describe the skill and usefulness of group and recreational activities-and will be able to demonstrate general fitness exercises used in Physical Training.
11. Be able to define Yoga and its types, its physiological and Psycho-somatic effects and will be able to demonstrate standard yoga postures used by the beginners.
12. Be able to demonstrate General Fitness exercises and shall gain fitness for self.

**Course Content**

Topic Serial No.	Title of content	Hours of teaching/learning	
		Theory	Practical
1	Basic Biomechanics- <ul style="list-style-type: none"> <li>• Axis/planes, Newton's law of motion, mechanics of Forces,levers, pendulum, equilibrium ,Torque, stability, base of support, COG,law of gravity</li> <li>• Types of muscle work-angle of pull- Mechanical advantage- applied mechanics in the Therapeutic Gymnasium</li> </ul>	14	-
2	Starting and derived positions	3	10
3	Classification of movements (active, passive, assisted, resisted)	5	20
4	Goniometry- principles, techniques, uses, types.	5	14
5	Limb length (only lower limb - apparent, true, supratrochantric) and girth measurements	4	4
6	Assessment of Sensations / Reflex testing.	2	4

7	Assessment of Blood pressure / pulse rate /chest expansion and Respiratory rate	2	4
8	Relaxation- all methods. <ul style="list-style-type: none"> <li>• Describe relaxation, muscle fatigue, muscle spasm and tension (mental &amp; physical).</li> <li>• Factors contributing to fatigue &amp; tension.</li> <li>• Techniques of relaxation (local and general).</li> <li>• Effects, uses &amp; clinical application.</li> <li>• Indication &amp; contraindication.</li> </ul>	4	6
9	Massage manipulations-principles effects/merits/demerits -skills on extremities / scalp / spine/ abdomen / face. <ul style="list-style-type: none"> <li>• History, various types of soft tissue manipulation techniques.</li> <li>• Physiological effects of soft tissue manipulation on the following systems of the body;</li> <li>• Circulatory, Nervous, Musculoskeletal, Excretory, Respiratory, Integumentary system and Metabolism.</li> <li>• Classify, define and describe: - effleurage, stroking, kneading, petrissage, deep friction,percussions ,vibration and shaking etc. Preparation of patient: Effects, uses, indications and contraindications of the above manipulation.</li> </ul>	5	10
10	Therapeutic Gymnasium- <ul style="list-style-type: none"> <li>• Setup of a gymnasium &amp; its importance.</li> <li>• Various equipment in the gymnasium.</li> <li>• Operational skills, effects &amp; uses of each equipment (shoulder wheel, finger ladder, therapeutic balls, parallel bars etc.)</li> <li>• Suspension therapy, use of accessories such as pulleys, springs</li> </ul>	4	8
11	Walking aids – Introduction, types, parts, measurement	3	2

12	<p>Principles of Yoga &amp; basic Yogic postures and their physiological effects.</p> <p><b>Yogic postures:-</b></p> <ul style="list-style-type: none"> <li>• Supine Position <ul style="list-style-type: none"> <li>➤ Shavasana</li> <li>➤ Halasana</li> <li>➤ Sarvangasana</li> <li>➤ Setubandhasana</li> <li>➤ Pavanmuktasana</li> </ul> </li> <li>• Prone Position <ul style="list-style-type: none"> <li>➤ Dhanurasana</li> <li>➤ Salabhasana</li> <li>➤ Bhujangasana</li> <li>➤ Naukasana</li> </ul> </li> <li>• Standing <ul style="list-style-type: none"> <li>➤ Padahastasana</li> <li>➤ Trikonasana</li> <li>➤ Utkatasana</li> </ul> </li> <li>• Sitting <ul style="list-style-type: none"> <li>➤ Padmasana</li> <li>➤ Siddhasana</li> <li>➤ Paschimottanasana</li> <li>➤ Yogamudrasana</li> <li>➤ Vajrasana</li> <li>➤ Gomukhasana</li> </ul> </li> </ul>	5	10
13	<p>Hydrotherapy-physics-application-effects-merits /demerits - Basic principles of fluid mechanics, as they relate to hydrotherapy.</p> <ul style="list-style-type: none"> <li>• Physiological &amp; therapeutic effects of hydrotherapy, including joint mobility muscle Strengthening &amp; wound care etc.</li> <li>• Types of Hydrotherapy equipment, indications, contraindications, operation skills &amp; patient preparation</li> </ul>	6	4
14	<p><b>Human dignity and human rights</b></p> <ul style="list-style-type: none"> <li>• Human dignity as an intrinsic value</li> <li>• Respect , care and Equality in dignity of all human beings</li> <li>• human dignity in different cultural and moral traditions</li> <li>• ethical aspects of physiotherapists in patients relation in regard to human dignity in handling children, women, elderly ,mental &amp; Physically challenged.</li> </ul>	2	

Text Books

Sr.No.	Title
1	Principles of Exercise Therapy – Dena Gardiner
2	Massage, manipulation & traction- Sydney Litch
3	Therapeutic Exercise Colby Kisner
4	Massage- Hollis
5	Suspension Therapy in Rehabilitation-Margaret Hollis
6	Biomechanics- Cynthia Norkins
7	Hydrotherapy - Duffield
8	Measurement of joint motion - Cynthia Norkins

Reference Books

Sr.No.	Title
1	Clinical Kinesiology – Brunnstrom

**SCHEME OF EXAMINATION**

Written		Total	Practical		Total
IA	Final exam	Final exam	IA	Final exam	Final exam
20	80	100	20	80	100

**Periodical Examination:**

- Written Examination:-20 MCQ for 20 marks, 20 minutes.
- Practical Examination:- 20 marks

**Preliminary Examination / University (Final) Examination**

- **Written Examination ( 80 marks)**

**THEROY**

**Theory-80 marks Internal Assessment 20 marks**

Sec A	MCQ	20x1=20 marks
Sec B	1.Short Notes. Answer any 5 out of 6	5x3=15
	2.Short answer questions. Answer any 3 out of 4	3x5=15
Sec C	1.Long Answer Questions (compulsory)	1x15=15
	2.Long Answer Questions Answer any 1 out of 2	1x15=15

**PRACTICAL**

**Theory-80 marks Internal Assessment 20 marks**

1.	Long Case: Massage/ Goniometry / Suspension therapy	35 marks
2.	Short Case: any one of the following. Short case based on passive movements /Relaxation/Limb	20 marks

	Length-Girth/Sensation/Reflex testing/ Yoga/posture/Aerobics/group exercise/warm ups /BP & Pulse/Chest Expansion and Respiratory Rate/Starting and Derived position etc.	
<b>3</b>	Spots (20)+ Journal(5) Five spots based on therapeutics gymnasium. 4 marks per spot, 5 minutes per spot.	20+5=25 marks (5x4=20)

- **SUPERVISED PRACTICAL TRAINING:**

- Journals marks = 5 marks

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination

#### Internal Assessment Marks

Theory / Practical:-

Periodical exam	= 20 marks
Prelim exam	= 80 marks
Total	= 100 marks

The total shall be Converted to 20 marks (100/5=20)

**Course Title :- Computer Science [32 hours]**  
**Course Code:- PT 205**

**Course Credit for Computer Science**

<b>Learning Objectives</b>																		
<p>At the end of the course, the candidate will-</p> <ol style="list-style-type: none"> <li>1. Acquire the knowledge of concepts of cell injury &amp; changes produced thereby in different tissues &amp; organs - capacity of the body in healing process.</li> <li>2. Recall the Etio – pathogenesis, the pathological effects &amp; the clinico – pathological correlation of common infections &amp; non-infectious diseases.</li> <li>3. Acquire the knowledge of concepts of Neoplasia with reference to the Etiology, gross &amp; microscopic features, diagnosis &amp; prognosis in different tissues &amp; organs of the body.</li> <li>4. Correlate normal &amp; altered morphology of different organ systems in different diseases needed for understanding disease process &amp; their clinical significance (with special emphasis to Neuro-Musculo-skeletal &amp; cardio-respiratory systems).</li> <li>5. Acquire knowledge of common Immunological disorders &amp; their resultant effects on the human body.</li> <li>6. Understand in brief, about the Hematological diseases &amp; investigations necessary to diagnose them &amp; determine their prognosis.</li> <li>7. At the end of the Microbiology course, the candidate will have sound knowledge of the agents responsible for causing human infections, pertaining to C.N.S., C.V.S. Musculoskeletal &amp; Respiratory system.</li> </ol>																		
<b>Course Content- A/B if applicable</b>																		
Topic Serial No.	A) Pathology													Hours of teaching/learning				
														Theory	Practical			
1	<b>Cell injury</b>													4	-			

	<ul style="list-style-type: none"> <li>• causes, mechanism &amp; toxic injuries with special reference to Physical,</li> <li>• Chemical &amp; ionizing radiation.</li> <li>• Reversible injury (degeneration)-types-morphology, swelling, hyaline, fatty</li> <li>• changes.</li> <li>• Intra-cellular accumulation-hyaline mucin&amp; pigment disorders.</li> <li>• Irreversible cell injury-types of necrosis-apoptosis</li> <li>• Extra-cellular accumulation- amyloidosis, calcification — metastasis, &amp;dystrophic – Pathogenesis, morphology</li> </ul>		
2	<b>Inflammation &amp; Repair</b> <ul style="list-style-type: none"> <li>• Acute inflammation – features, causes, vascular &amp; cellular events,</li> <li>• Morphologic variations,</li> <li>• Inflammatory cells &amp; mediators,</li> <li>• Chronic inflammation:-causes, types, non- specific &amp; granulomatous – with</li> <li>• examples</li> <li>• Wound healing by primary &amp;secondary union factors promoting &amp; delaying</li> <li>• healing process.</li> <li>• Healing at various sites - including-bones, nerve &amp; muscle</li> <li>• g) Regeneration &amp; repair</li> </ul>	3	-
3	<b>Immuno – pathology – (basic concepts)</b> <ul style="list-style-type: none"> <li>• Immune system:-organization-cells- antibodies - regulation of immune responses,</li> <li>• Hyper-sensitivity,</li> <li>• Secondary immuno-deficiency including HIV,</li> <li>• d) Organ transplantation</li> </ul>	2	-
4	<b>Circulatory disturbances</b> <ul style="list-style-type: none"> <li>• Edema -pathogenesis -types -transudates /exudates,</li> <li>• Chronic venous congestion-lung, lever, spleen,</li> <li>• Thrombosis – Mechanism and Morphology</li> <li>• Embolism – types-clinical effects,</li> <li>• Infarction – types – common sites</li> <li>• Gangrenes – types – etiopathogenesis</li> <li>• Shock – Pathogenesis, types, morphologic changes</li> </ul>	3	-
5	<b>Growth Disturbance</b> <ul style="list-style-type: none"> <li>• Atrophy-malformation, agenesis, dysplasia,</li> <li>• Neoplasia classification, histogenesis, biologic behavior, difference between</li> </ul>	3	-

	<ul style="list-style-type: none"> <li>• benign &amp; malignant tumour</li> <li>• Malignant neoplasms -grades-stages-local &amp; distal spread</li> <li>• Precancerous lesions &amp;ca in situ</li> <li>• Tumor &amp; host interactions – systemic effects-metastatic or direct spread of</li> <li>• tumors affecting bones, spinal cord, leading to paraplegia, etc.</li> </ul>		
6	<b>Cardiovascular system</b> <ul style="list-style-type: none"> <li>• Atherosclerosis -Ischemic heart diseases–myocardial</li> <li>• infarction – Pathogenesis / Pathology</li> <li>• Hypertension</li> <li>• CongestiveCardiacFailure,Pericarditis, Cardiomyopathy</li> <li>• Rheumatic Heart Disease, Infective endocarditis</li> <li>• Peripheral vascular diseases</li> </ul>	3	-
7	<b>Respiratory system</b> <ul style="list-style-type: none"> <li>• COPD,</li> <li>• Pneumonia (lobar, broncho, viral),</li> <li>• T.B. Primary, secondary – morphologic types,</li> <li>• Pleuritis, complications,</li> <li>• Lung collapse – atelectasis</li> </ul>	3	-
8	<b>Neuropathology</b> <ul style="list-style-type: none"> <li>• Reaction of nervous tissue to injury – infection &amp; ischemia</li> <li>• Pyogenic meningitis, TBM, Viral</li> <li>• Cerebrovascular disease, atherosclerosis, Thrombosis, embolism, aneurysm, hypoxia, infarction &amp; hemorrhage.</li> <li>• Effects of Hypotension on CNS</li> <li>• Coma</li> <li>• Poliomyelitis, Leprosy, Demyelinating diseases, Parkinsonism, Cerebral palsy, metachromatic leucodystrophy, Dementia, Hemiplegia, paraplegia, Wilson’s disease</li> <li>• Space Occupying Lesions ( SOL) - (in brief)</li> <li>• Peripheral nerve injury</li> </ul>	3	
9	<b>Diseases of muscle</b> Muscular dystrophy, hypertrophy, Pseudo, hypertrophy, atrophy, Myositis ossificans, necrosis, regeneration, Myotonia, Muscle biopsy.	1	
10	<b>Neuromuscular junction</b> Myasthenia gravis, Myasthenic syndrome, Nerve biopsy.	1	

11	<b>Bone &amp; Joints:</b> Fracture healing, Osteomyelitis, rickets, Osteomalacia, Bone Tumors, Osteoporosis, Spondylosis, Prolapse Interverbral Disc, Scoliosis, Haemarthrosis, Gout, T.B., Arthritis –degenerative, inflammatory, RA, Ankylosing spondylitis, Tenosynovitis.	2	
12	<b>Clinical pathology – (including Demonstrations)</b> Lab investigation in liver & renal failure	2	
13	<b>Haematology</b> <ul style="list-style-type: none"> <li>• T.C./D.C./PBS, Eosinophilia, E.S.R., Anaemia</li> <li>• Bleeding and coagulation disorders</li> <li>• Disorders of haemoglobin structure and synthesis</li> <li>• Lymphoid and myeloid neoplasmas</li> </ul>	3	
	<b>Desirable to Know: -</b> <ul style="list-style-type: none"> <li>• Growth Disturbance - Carcinogenesis – environmental</li> <li>• carcinogens</li> <li>• Endocrine – Hyperthyroidism – Diabetes</li> <li>• Hepatic diseases -Cirrhosis – emphasis to systemic effects of portal Hypertension.</li> </ul>	3	
	<b>Nice to Know: -</b> <ul style="list-style-type: none"> <li>• Deficiency disorders – Vitamins A, B, C, D.</li> <li>• Growth Disturbance - Chemical, Occupational, heredity, viral.</li> <li>• Medical Genetics – (In Brief)</li> <li>• Urinary – commonly encountered in paralytic bladder, common urinary tractinfections (brief)- urinary calculi.</li> <li>• G.I. system- -Gastric/duodenal ulcer, enteric fever, TB, enteritis, Gastritis(Related to consumption of NSAID)</li> <li>• Skin - Melanin pigment disorders, Vitiligo, Teniaversicolor, Psoriasis, Bacterial / fungal infections, cutaneous TB, Scleroderma, SLE, Leprosy, Alopecia, Skin Biopsy.</li> </ul>	4	
Topic Serial No.	B) Microbiology	Hours of teaching/learning	
		Theory	Practical
1	General Microbiology - Introduction & scope	2	
2	Classification of Micro - organisms & morphology of Bacteria a)Bacterial cell, its organelles Gram and Ziehl - Neelson and itsImportance in lab diagnosis.	2	
3	<b>Sterilization &amp; disinfection [basic concepts]</b> <b>Must know -</b> Definition of Sterilization, Disinfection, Enumeration of	3	

	<p>Coryne bacterium diphtheria, Clostridium Perfringens &amp; clostridium tetani.</p> <p>Infection caused by Gram –ve bacilli –</p> <p><b>Must know</b> – Morphology, pathogenicity &amp; lab diagnosis of E. coli, Klebsiella, Pseudomonas, Shigella, Salmonella, V. Cholera.</p> <p><b>Desirable to know</b> – Role of Pseudomonas in HAI.</p> <p>Infection caused by Mycobacteria –</p> <p><b>Must know</b> - Morphology, pathogenicity &amp; lab diagnosis of M. tuberculosis, M leprae &amp; atypical Mycobacteria. Spirochaetes –</p> <p><b>Must know</b> - Morphology, pathogenicity &amp; lab diagnosis of Treponema Pallidum (VDRL test &amp; TPHA)</p> <p><b>Desirable to know</b> – Leptospira Borrelia.</p>		
7	<p><b>Viruses</b></p> <ul style="list-style-type: none"> <li>• Introduction &amp; General properties of viruses –</li> </ul> <p><b>Must know</b> – Size, shape, symmetry, Structure of viruses, classification, cultivation of Viruses &amp; methods for diagnosis of viral infections</p> <ul style="list-style-type: none"> <li>• <b>HIV.</b></li> </ul> <p><b>Must know</b> – Morphology transmission clinical syndromes, Laboratory diagnosis &amp; Prevention.</p> <ul style="list-style-type: none"> <li>• <b>Hepatitis –</b></li> </ul> <p><b>Must know</b> – List of viruses causing Hepatitis, pathogenicity, Laboratory diagnosis &amp; Prevention.</p> <ul style="list-style-type: none"> <li>• Polio, measles, congenital, Viral infection, Rubella, CMV, Herpes -</li> </ul> <p><b>Must know</b> – Clinical syndrome &amp; Laboratory diagnosis.</p>	4	
8	<p><b>Mycology</b></p> <p><b>Must know</b> – Morphological classification &amp; general lab Diagnosis, Definition, causative Agents &amp; lab Diagnosis of mycetoma, Pathogenicity &amp; lab diagnosis of Aspergillosis &amp; Candidiasis</p>	2	
9	<p><b>Parasites affecting CNS</b></p> <p><b>Must know</b> – List of parasites affecting CNS, on short about lab diagnosis of malaria, Filarial, Toxoplasma, Cysticercosis, echinococcus.</p>	2	
10	<p><b>Applied Microbiology</b></p> <ul style="list-style-type: none"> <li>• <b>Diseases affecting bones, joints &amp; muscles -</b></li> </ul> <p><b>Must know</b> – Osteomyelitis – etiology, lab diagnosis, Arthritis.</p> <ul style="list-style-type: none"> <li>• <b>Disease involving brain &amp; nerves -</b></li> </ul> <p><b>Must know</b> – Meningitis, brain abscess is Infective neuritis, etiology &amp; clinical manifestations &amp; lab diagnosis.</p> <ul style="list-style-type: none"> <li>• <b>Diseases involving cardiopulmonary system, skin &amp; burns -</b></li> </ul> <p><b>Must know</b> – Infective Carditis PUO, URTL, LRTI, Skin &amp; burn Infections etiology Laboratory diagnosis.</p>	4	

Text Books

<b>Learning Objectives:</b>																	
At the end of the course, the candidate will																	
<ol style="list-style-type: none"> <li>Analyze Normal human posture [static &amp;dynamic] &amp; various Normal Musculo skeletal movements during Gait, activities of daily living, &amp; describe the movements of the Thorax during breathing.</li> <li>Describe the Biophysical properties of connective tissue, effect of mechanical loading, factors influencing the Muscle strength, mobility of articular &amp;peri-articular soft tissues.</li> <li>Describe the physiological &amp; Therapeutic uses, merits /demerits of various exercise modes.</li> <li>Demonstrate various therapeutic exercises on self &amp; acquire the application skill on models.</li> <li>Acquire the skill of assessment of isolated &amp;group muscle strength, &amp; Range of motion of the joints subjectively &amp; objectively.</li> <li>Describe the pattern of normal and abnormal movements of various joints and activities.</li> </ol>																	
<b>Course Content</b>																	
Topic Serial No.	Title of content											Hours of teaching/learning					
												Theory			Practical		
1	Principle, classification, techniques, physiological& therapeutic effects, indications & contraindications of therapeutic exercises											2			-		
2	<b>Muscle Strength</b> <ul style="list-style-type: none"> <li>Assessment of muscle strength, [group/individual] subjective &amp; objective methods 1/10 RM – dynamometry</li> <li>Factors that influence the strength, hypertrophy, recruitment of motor units, change after training /type of contraction - Isometric / Isotonic / Isokinetic / Eccentric.</li> <li>General principles of strength training:-overload /intensity / Motivation / learning / duration / frequency / reversibility / specificity</li> </ul>											10			16		
3	<b>Joint &amp; connective tissues.</b> Bio-physical properties of connective tissue, [ contractile &non-contractile ]Elasticity /Plasticity – response to sudden/slow/sustained loading –Stress strain Curve, Creep, Hysteresis, joint classification and joint movements, Open Kinetic Chain and Closed Kinetic Chain exercises. Mobilization – Methods - stretching /traction [cervical &lumbar] rhythmic movements/oscillations. Mobilization of muscles & Fasciae - around the shoulder /elbow/wrist/Hip/knee/ankle /Spine [dorso-lumbar fascia], /Hold – Relax											10			12		

4	<p><b>Posture</b></p> <ul style="list-style-type: none"> <li>• Normal Posture – Overview of the mechanism of normal posture.</li> <li>• Abnormal Posture – Assessment, Types, etiogenesis, management, including therapeutic exercises.</li> <li>• Methods of Assessment of the Posture – Sitting /standing /Lying</li> <li>• /Physiological, Deviations of the posture</li> <li>• Methods of assessment – Sagittal &amp; frontal plane with plumbline&amp; postural</li> <li>• frame, by spondylometer, retraining after assessment.</li> <li>• Mobility evaluation of joint / muscles &amp; its implication on posture.</li> <li>• Static and Dynamic Balance – Assessment &amp; management including</li> <li>• therapeutic exercises.</li> </ul>	5	5
5	<p><b>Gait</b></p> <ul style="list-style-type: none"> <li>• Overview of normal gait &amp; its components.</li> <li>• Gait deviations - Assessment, Types, etiogenesis, management, including therapeutic exercises</li> <li>• Methods of assessment of Gait-measurements for walking aids</li> <li>• Types of walking aids: (axillary /elbow crutches, walking sticks) indications, effects &amp; various training techniques</li> <li>• Crutch gaits, Crutch muscle, Pre – crutch training – on bed, parallel Bar, off Bed, crutch hold / balance.</li> <li>• Training for different conditions (Paraplegia, Hemiparesis, Amputation, etc.)</li> </ul>	5	14
6	<p><b>Co-ordination &amp; Balance</b> Principles, Technique, Neural control, Methods of co-ordination exercises, Frenkel’s exercises Differentiate types of co-ordination loss &amp; balance loss. Physiology of inco-ordination, Balance loss &amp; training.</p>	4	8
7	<p><b>Principles of P.N.F.</b> Theory, Principles ,Patterns of P.N.F., Techniques of P.N.F.</p>	3	3
8	<p><b>Breathing exercises</b> Goals –Inspiratory – Expiratory /Segmental Forced Expiratory – coughing – huffing /Modified Inspiratory /Active cycle of breathing. Indication &amp; its importance for patients. Physiology of the above mentioned techniques.</p>	5	10
9	<p><b>Bronchial Hygiene</b> Postural drainage position / Autogenic drainage. Humidification</p>	5	12

10	<b>Principles of Home programme&amp; Ergonomic advice</b>	2	3
11	<b>Functional Re-education</b> <ul style="list-style-type: none"> <li>• Functional motor skills, -Motor skills to function independently in ADL</li> <li>• Mobility, Bed /Wheel chair mobility, ambulation training</li> <li>• Practical application on – Hemiplegia, Paraplegia, General Weakness.</li> <li>• Application of mat exercises [to practice on self &amp; on models]</li> </ul>	10	14
12	<b>6 Minute walk test – on models (with interpretations)</b> Procedure, Data recording and data Interpretation, Indications & contra indication & practical execution.– Risk factors and care to be taken during the test. Other tests similar to this (3min. walk test, 12 min walk test)	1	4
13	<b>Benefit and harm of patient’s right &amp; dignity in Health care settings by physiotherapy</b> <ul style="list-style-type: none"> <li>• The WHO definition of health as a possible solution of health problems</li> <li>• What is the health benefit by physiotherapy</li> <li>• Possible harm for a patient during physiotherapy</li> <li>• Dimensions of comparing harms and benefits in individual patients</li> </ul>	2	
13	<b>SUPERVISED LABORATORY TRAINING</b>		25

Text Books

Sr.No.	Title
1	Progressive resisted exercises – by Margaret Hollis,
2	Therapeutic Exercise by Carolyn Kisner
4	PNF – Knott and Voss

### Learning Objectives:

At the end of the course, the candidate will-

1. Be able to define the term Psychology & its importance in the Health delivery System & will gain knowledge of Psychological maturation during human Development & growth & alterations during aging process.
2. Be able to understand the importance of psychological status of the person in Health & disease, environmental & emotional influence on the mind & personality.
3. Acquire the Knowledge as to how to deal with the patients.
4. Socio economic and cultural differences.
5. Socioeconomic and cultural issues related to morbidity owing to the physical disability and handicaps.

Topic Serial No.	Psychology <u>Section – I - General Psychology</u>	Hours of teaching/learning	
		Theory	Practical
	<b>Must know</b>		
1	a. Introduction to Psychology b. Definition and nature of Psychology, Fields & subfields of psychology. c. Schools of thoughts – Structuralism, functionalism, Behaviorism, Gestalt, Psycho-analytic Theory	3	-
2	Developmental Psychology d. Definition & its Theories - Physiological and psychological changes during Infancy, Early & Late childhood, adolescent stage, Puberty, adulthood & old age	6	-
3	Emotions-nature & relationship with autonomic nervous system- Theories of emotions a) James Lange theory, b. Schachter Singer theory, c. Cannon Bard theory	3	-
4	Motivation- Maslow's hierarchy of motives, Theories of motivation; Conflict & Frustration – Types of conflicts, Common Defense mechanism, stress	3	-
	<b>Desirable to know -</b>		-
1	Attention & perception Nature of attention, Nature of perception, Principle of grouping	2	-
2	Memory- Definition and nature, types of memory and forgetting cause Learning	3	-
3	Learning : Definition and theories, conditioning, Role of learning in human life – Conditioning	3	-
4	Abnormal Psychology -Deference between normal & Abnormal, Causes of abnormality	1	-

Topic Serial No.	Psychology <u>Section – II-Health Psychology</u>	Hours of teaching/learning	
		Theory	Practical
1	Psychological Reactions of a Patient: Psychological reactions of a patient during admission and treatment anxiety, shock, denial, suspicion, questioning, loneliness, regression, shame, guilt, rejection, fear, withdrawal, depression, egocentricity, concern about small matters, narrowed interests, emotional overreactions, perpetual changes, confusion, disorientation, hallucinations, delusions, illusions, anger, hostility, loss of hope.	4	-
2	Reactions to Loss: Reactions to loss, death and bereavement shock and disbelief, development of awareness, restitution, resolution. Stages of acceptance as proposed by Kubler – Ross.	4	-
3	Stress: Physiological and Psychological relation to health and sickness: psychosomatic, professional stress burnout.	4	-
4	Compliance: Nature, factors, contributing to non – compliance, improving compliance.	4	-
5	Behavior Modifications: Application of various conditioning and learning principles to modify patient behaviours.	4	-
6	Personality Styles: Different personality styles of patients.	4	-

### SCHEME OF EXAMINATION

Written		Total
IA	Final exam	Final exam
20	80	100

#### Periodical Examination:

- Written Examination:-20 MCQ for 20 marks, 20 minutes.

#### Preliminary Examination / University (Final) Examination

- **Written Examination ( 80 marks)**

#### THEROY

#### Theory-80 marks Internal Assessment 20 marks

Sec A	MCQ	20x1=20 marks
Sec B	1. Short Notes. Answer any 5 out of 6	5x3=15
	2. Short answer questions. Answer any 3 out of 4	3x5=15
Sec C	1.Long Answer Questions (compulsory)	1x15=15
	2.Long Answer Questions Answer any 1 out of 2	1x15=15

- **SUPERVISED PRACTICAL TRAINING:**

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination

#### Internal Assessment Marks

Theory :-

Periodical exam	= 20 marks
Prelim exam	= 80 marks
Total	= 100 marks

The total shall be Converted to 20 marks (100/5=20)

<b>Course Title: COMMUNITY MEDICINE, SOCIOLOGY AND ENVIRONMENT SCIENCE</b>

At the end of the course, the candidate shall be able to understand the contents given in the syllabus of Community Medicine.																		
<b>Course Content – (section A/B/C if applicable)</b>																		
Topic Serial No.	<b>A.COMMUNITY MEDICINE</b>													Hours of teaching/learning				
														Theory	Practical			
1	<p align="center"><b>MUST TO KNOW</b></p> <p><b>Health &amp; Disease</b></p> <ul style="list-style-type: none"> <li>• Definitions: National &amp; International, Concepts, Dimensions and Indicators of Health, Concept of well-being, Spectrum and Determinants of Health</li> <li>• Concept and natural history of Disease, Concepts of disease control and prevention, Modes of Intervention</li> <li>• Population Medicine</li> <li>• The role of socio-economic and cultural environment in health and disease</li> </ul>													6	-			
2	<p><b>Epidemiology</b></p> <ul style="list-style-type: none"> <li>• Definition and scope.</li> <li>• Principles of Epidemiology and Epidemiological methods, Uses of Epidemiology</li> </ul>													3	-			
3	<p><b>Socio-Economical &amp; Cultural Issues related to Morbidity owing to the Physical</b></p> <p>Disability &amp; Handicaps of Structural /Neuro-motor &amp; Psycho-somatic origin:</p> <ul style="list-style-type: none"> <li>• Health problem in vulnerable groups</li> <li>• Pregnant &amp; lactating women, Pelvic floor Dysfunction, Urinary incontinence,</li> <li>• Pre-term babies with high risk, Infants &amp; Pre-School Children-Brain Damage, during birth injury</li> </ul>													7	-			
4	<p><b>Demography and Family Planning</b></p> <ul style="list-style-type: none"> <li>• Family planning-objectives of national family planning programme</li> <li>• Family planning methods: A general idea of advantage and disadvantages of the methods.</li> </ul>													2	-			

5	<b>Immunization programmes</b> – children & hospital staff.	1	-
6	<b>Occupational Health:</b> <ul style="list-style-type: none"> <li>• Occupational hazards,</li> <li>• Occupational diseases</li> <li>• Prevention of occupational diseases.</li> <li>• Social security and other measures for the protection from occupational hazard accidents and diseases,</li> <li>• Compensation acts.</li> </ul>	4	2
7	<b>Hospital waste management</b> <ul style="list-style-type: none"> <li>• Sources of hospital waste, Health hazards, Waste management</li> </ul>	3	2
8	<b>Disaster Management</b> <ul style="list-style-type: none"> <li>• Natural and man-made disasters</li> <li>• Disaster impact and response</li> <li>• Relief phase</li> <li>• Epidemiologic surveillance and disease control, Nutrition, Rehabilitation, Disaster preparedness</li> </ul>	3	2
9	<b>Health Education</b> <ul style="list-style-type: none"> <li>• Concepts, aims and objectives</li> <li>• Approaches to health education</li> <li>• Models of health education</li> <li>• Contents of health education</li> <li>• Principles of health education</li> <li>• Practice of health education</li> </ul>	3	2
10	<b>Addiction</b> – Alcoholism, Neuromotor, Psychosomatic disorders and Smoking	1	2
11	<b>DESIRABLE TO KNOW</b> <ul style="list-style-type: none"> <li>• Environmental Hygiene including man &amp; his surrounding, Occupational &amp; Industrial hygiene, Village &amp; Town Sanitation.</li> <li>• Overview of Public Health Administration at Central &amp; State levels – Strategies of Health Delivery System for “Millennium Development goals” National health Programme. Brief role of WHO.</li> </ul>	1 1	1 1
	<b>Mental Health</b> <ul style="list-style-type: none"> <li>• Characteristics of a mentally healthy person</li> <li>• Types of mental illness</li> <li>• Causes of mental ill health</li> <li>• Preventive aspects</li> <li>• Mental health services</li> <li>• Alcohol and drug dependence</li> </ul>	1	-
	<b>Nutrition and Health</b> <ul style="list-style-type: none"> <li>• Nutritional problems in public health</li> <li>• Community nutrition programmes</li> </ul>	1	1

	<p><b>NICE TO KNOW</b></p> <p><b>Health programmes in India</b></p> <ul style="list-style-type: none"> <li>• Vector borne disease control programme</li> <li>• National leprosy eradication programme</li> <li>• National tuberculosis programme,</li> <li>• National AIDS control programme,</li> <li>• National programme for control of blindness</li> <li>• Iodine deficiency disorders (IDD) programme,</li> <li>• Universal Immunisationprogramme</li> <li>• Reproductive and child health programme</li> <li>• National cancer control programme</li> <li>• National mental health programme</li> <li>• National diabetes control programme</li> <li>• National family welfare programme</li> <li>• National sanitation and water supply programme,</li> <li>• Minimum needs programme</li> </ul>	3	3
Topic Serial No.	<b>B. SOCIOLOGY</b>	Hours of teaching/learning	
		Theory	Practical
1	<p><b>MUST KNOW</b></p> <p>Introduction – Definition &amp; Relevance with Physiotherapy.</p>	1	-
2	Sociology & Health – Social factors affecting Health Status, Social Consciousness & Perception of Illness, Decision Making in taking Treatment.	1	-
3	Socialization – Definition, Influence, of Social Factors, on Personality, Socialization in the Hospital & Rehabilitation of the patients.	1	-
4	Social groups-Concepts, Influence of formal & informal groups of Health & Diseases.	2	-
5	Community Role of Rural & Urban communities in Public Health, Role of community in determining Beliefs, Practices & Home Remedies in Treatment.	2	-
6	<p>Social problems of the Disabled-Consequences of the following social problems in relation to sickness disability, remedies to prevent these problems</p> <ul style="list-style-type: none"> <li>• Population Explosion</li> <li>• Poverty &amp; Unemployment</li> </ul>	1	-
7	Social Security & Social Legislation in relation to the Disabled	1	-
1	<p><b>DESIRABLE TO KNOW</b></p> <p>Role of Primary &amp; Secondary Groups in the Hospital &amp; Rehabilitation Setting.</p>	2	-
2	Family-Influence on human personality, Individual Health, Family & Nutrition, Effects of Sickness on Family Psychosomatic Diseases & Family	1	-
3	Culture-Components Impact on Human Behaviour Cultural Meaning of Sickness, Response to Sickness & Choice of Treatment.	2	-

4	Caste systems-Features of Modern Cast Systems & its Trends, Social change factors–Human Adaptation, Stress, Deviance, Health Programme, Role of Social Planning in the improvement of Health & in Rehabilitation.	1	-
5	Social Control – Definition, Role of norms, Folkways, Customs, Morals, Religion, Law & other means of social controls in the regulation of Human Behavior, Social Deviance & Disease	1	-
6	Prostitution, Alcoholism, Beggary, Problems of Women in Employment, Role of a Social Worker.	2	-
1	<b>NICE TO KNOW</b> Role of Culture as Social consciousness in moulding the Perception of Reality, Culture induced Symptoms & Diseases, Sub-Culture of Medical Workers	1	-
2	Social problems of the Disabled-Consequences of the following social problems in relation to sickness disability, remedies to prevent these problems – Juvenile delinquency	1	-
Topic Serial No.	<b>C. ENVIRONMENTAL STUDIES</b>	Hours of teaching/learning	
		Theory	Practical
1	<b>Multidisciplinary nature of environmental studies</b> Definition, scope and importance Need for public awareness. III	1	-
2	<b>Natural Resources</b> <ul style="list-style-type: none"> <li>• Renewable and non-renewable resources</li> <li>• Natural resources and associated problems.</li> <li>• Forest resources: Use and over-exploitation, deforestation, case studies.</li> <li>• Timber extraction, mining, dams and their effects on forest and tribal people.</li> <li>• Water resources : Use and over-utilization of surface and ground water,</li> <li>• Floods, drought, conflicts over water, dams-benefits and problems.</li> <li>• Mineral resources: Use and exploitation, environmental effects of extracting and using mineral resources, case studies.</li> <li>• Food resources : World food problems, changes caused by agriculture and</li> <li>• overgrazing, effects of modern agriculture, fertilizer-pesticide problems, water</li> <li>• Logging, salinity, case studies.</li> <li>• Energy resources : Growing energy needs, renewable and non-renewable</li> <li>• Energy sources, use of alternate energy sources. Case studies.</li> </ul>	2	-

	<ul style="list-style-type: none"> <li>• Land resources : Land as a resource, land degradation, man induced</li> <li>• Landslides, soil erosion and desertification.</li> </ul> <p>Role of an individual in conservation of natural resources. Equitable use of resources for sustainable lifestyles.</p>		
3	<p><b>Ecosystems</b></p> <ul style="list-style-type: none"> <li>• Concept of an ecosystem. IV</li> <li>• Structure and function of an ecosystem.</li> <li>• Producers, consumers and decomposers.</li> <li>• Energy flow in the ecosystem.</li> <li>• Ecological succession.</li> <li>• Food chains, food webs and ecological pyramids.</li> <li>• Introduction, types, characteristic features, structure and function of the following ecosystem :- <ul style="list-style-type: none"> <li>➤ Forest ecosystem</li> <li>➤ Grassland ecosystem</li> <li>➤ Desert ecosystem</li> <li>➤ Aquatic ecosystems (ponds, streams, lakes, rivers oceans, estuaries)</li> </ul> </li> </ul>	2	-
4	<p><b>Biodiversity and its conservation</b></p> <ul style="list-style-type: none"> <li>• Introduction – Definition: genetic, species and ecosystem diversity.</li> <li>• Biogeographically classification of India</li> <li>• Value of biodiversity : consumptive use, productive use, social, ethical, aesthetic and option values</li> <li>• Biodiversity at global, National and local levels.</li> <li>• India as a mega-diversity nation V</li> <li>• Hot-spots of biodiversity.</li> <li>• Threats to biodiversity: habitat loss, poaching of wildlife, man-wildlife conflicts.</li> <li>• Endangered and endemic species of India</li> <li>• Conservation of biodiversity: In-situ and Ex-situ conservation of biodiversity.</li> </ul>	3	3
5	<p><b>Environmental Pollution</b></p> <ul style="list-style-type: none"> <li>• Definition, Cause, effects and control measures of :- <ul style="list-style-type: none"> <li>➤ Air pollution</li> <li>➤ Water pollution</li> <li>➤ Soil pollution</li> <li>➤ Marine pollution</li> <li>➤ Noise pollution</li> <li>➤ Thermal pollution</li> <li>➤ Nuclear hazards</li> </ul> </li> <li>• Solid waste Management: Causes, effects and</li> </ul>	3	3

	<p>control measures of urban and industrial wastes.</p> <ul style="list-style-type: none"> <li>• Role of an individual in prevention of pollution.</li> <li>• Pollution case studies.</li> <li>• Disaster management: floods, earthquake, cyclone and landslides.</li> </ul>		
6	<p><b>Social Issues and the Environment</b></p> <ul style="list-style-type: none"> <li>• From Unsustainable to Sustainable development</li> <li>• Urban problems related to energy</li> <li>• Water conservation, rain water harvesting, watershed management</li> <li>• Resettlement and rehabilitation of people; its problems and concerns. Case Studies</li> <li>• Environmental ethics: Issues and possible solutions.</li> <li>• Climate change, global warming, acid rain, ozone layer depletion, nuclear accidents and holocaust. Case Studies.</li> <li>• Wasteland reclamation.</li> <li>• Consumerism and waste products.</li> <li>• Environment Protection Act.</li> <li>• Air (Prevention and Control of Pollution) Act.</li> <li>• Water (Prevention and control of Pollution) Act</li> <li>• Wildlife Protection Act</li> <li>• Forest Conservation Act</li> <li>• Issues involved in enforcement of environmental legislation.</li> <li>• Public awareness.</li> </ul>	3	2
7	<p><b>Human Population and the Environment</b></p> <ul style="list-style-type: none"> <li>• Population growth, variation among nations.</li> <li>• Population explosion – Family Welfare Programme. VII</li> <li>• Environment and human health.</li> <li>• Human Rights.</li> <li>• Value Education.</li> <li>• HIV/AIDS.</li> <li>• Women and Child Welfare.</li> <li>• Role of Information Technology in Environment and human health.</li> <li>• Case Studies.</li> </ul>	6	8

Learning Objectives:																		
At the end of the course, the candidate will																		
<ol style="list-style-type: none"> <li>1. Be able to discuss the Patho-physiology, clinical manifestations &amp; conservative/Surgical management of various traumatic &amp; cold cases of the Musculo-skeletal Conditions</li> <li>2. Gain the skill of clinical examination &amp; interpretation of the preoperative cold cases &amp; all the post-operative cases</li> <li>3. Will be able to read &amp; interpret a) salient features of the X-ray of the spine &amp; Extremities</li> <li>4. pathological/ biochemical studies pertaining to Orthopaedic Conditions</li> <li>5. Will be able to correlate the radiological findings with the clinical findings</li> </ol>																		
Course Content																		
Topic Serial No.	Title of content	Hours of teaching/learning																
		Theory	Practical															
1.	<b>Introduction</b> <ul style="list-style-type: none"> <li>• Introduction to orthopaedics.</li> <li>• Clinical examination in an Orthopaedic patient.</li> <li>• Common investigative procedures.</li> <li>• Radiological and Imaging techniques in Orthopaedics.</li> </ul>	3	-															
2.	<b>Traumatology</b> <ul style="list-style-type: none"> <li>• Fracture: definition, types, signs and symptoms.</li> <li>• Fracture healing.</li> <li>• Complications of fractures.</li> <li>• Conservative and surgical approaches.</li> <li>• Principles of management – reduction (open/closed, immobilization etc).</li> </ul>	3	-															

	<ul style="list-style-type: none"> <li>• Subluxation/ dislocations – definition, signs and symptoms, management (conservative and operative).</li> </ul>		
3.	<p><b>Fractures and Dislocations of Upper Limb</b> Fractures of Upper Limb - causes, clinical features, mechanism of injury, complications, conservative and surgical management of the following fractures:</p> <ul style="list-style-type: none"> <li>• Fractures of clavicle and scapula.</li> <li>• Fractures of greater tuberosity and neck of humerus.</li> <li>• Fracture shaft of humerus.</li> <li>• Supracondylar fracture of humerus.</li> <li>• Fractures of capitulum, radial head, olecranon, coronoid, and epicondyles.</li> <li>• Both bone fractures of ulna and radius.</li> <li>• Fracture of forearm – Monteggia, Galeazzi fracture – dislocation.</li> <li>• Chauffeur’s fracture.</li> <li>• Colle’s fracture.</li> <li>• Smith’s fracture.</li> <li>• Scaphoid fracture.</li> <li>• Fracture of the metacarpals.</li> <li>• Bennett’s fracture.</li> <li>• Fracture of the phalanges. (Proximal and middle.)</li> </ul> <p><b>Dislocations of Upper Limb :</b></p> <ul style="list-style-type: none"> <li>• Anterior dislocation of shoulder – mechanism of injury, clinical feature, complications, conservative management, surgical management.</li> <li>• Recurrent dislocation of shoulder.</li> <li>• Posterior dislocation of shoulder – mechanism of injury, clinical features and management.</li> <li>• Posterior dislocation of elbow– mechanism of injury, clinical feature, complications &amp; management.</li> </ul>	5	-
4.	<p><b>Fracture of Spine</b></p> <ul style="list-style-type: none"> <li>• Fracture of Cervical Spine - Mechanism of injury, clinical feature, complications (quadriplegia);</li> <li>• Management- immobilization (collar, cast, brace, traction); Management for stabilization, management of complication (bladder and bowel, quadriplegia).</li> <li>• Clay shoveller’s fracture.</li> <li>• Hangman’s fracture.</li> <li>• Fracture odontoid.</li> <li>• Fracture of atlas.</li> <li>• Fracture of Thoracic and Lumbar Regions -</li> </ul>	5	-

	<p>Mechanism of injury, clinical features, conservative and surgical management of common fractures around thoracic and lumbar regions.</p> <ul style="list-style-type: none"> <li>• Fracture of coccyx.</li> <li>• Fracture of Rib Cage - Mechanism of injury, clinical features, management for Fracture Ribs, Fracture of sternum.</li> </ul>		
5.	<p><b>Fractures and Dislocations of Lower Limb</b> Fracture of Pelvis and Lower Limb - causes, clinical features, mechanism of injury, complications, conservative and surgical management of the following fractures:</p> <ul style="list-style-type: none"> <li>• Fracture of pelvis.</li> <li>• Fracture neck of femur – classification, clinical features, complications, management - conservative and surgical.</li> <li>• Fractures of trochanters.</li> <li>• Fracture shaft femur—clinical features, mechanism of injury, complications, management-conservative and surgical.</li> <li>• Supracondylar fracture of femur.</li> <li>• Fractures of the condyles of femur.</li> <li>• Fracture patella.</li> <li>• Fractures of tibial condyles.</li> <li>• Both bones fracture of tibia and fibula.</li> <li>• Dupuytren’s fracture</li> <li>• Maisonneuve’s fracture.</li> <li>• Pott’s fracture – mechanism of injury, management.</li> <li>• Bimalleolar fracture , Trimalleolar fracture</li> <li>• Fracture calcaneum – mechanism of injury, complications and management.</li> <li>• Fracture of talus.</li> <li>• Fracture of metatarsals—stress fractures Jone’s fracture.</li> <li>• Fracture of phalanges.</li> </ul> <p>Dislocations of Lower Limb Mechanism of injury, clinical features, complications, management of the following dislocations of lower limb.</p> <ul style="list-style-type: none"> <li>• Anterior dislocation of hip.</li> <li>• Posterior dislocation of hip.</li> <li>• Central dislocation of hip.</li> <li>• Dislocation of patella. Recurrent dislocation of patella.</li> </ul>	5	-
6.	<p><b>Diseases of Bones and Joints</b> Causes, Clinical features, Complications, Management-</p>		-

	<p>medical and surgical of the following conditions :</p> <ul style="list-style-type: none"> <li>• Infective: Osteomyelitis, TB Spine and other major joints</li> <li>• Bone tumors: classification, clinical features, management</li> <li>• Perthes, Slipped Capital Femoral Epiphysis , Avascular Necrosis</li> <li>• Metabolic: Osteoporosis, Osteopenia Osteomalacia, Rickets</li> </ul>	5	
7.	<p><b>Peripheral nerve injuries</b> Mechanism, Clinical Features, Management and Complications</p>	3	-
8.	<p><b>Deformities</b> Clinical Features, Complications, Medical and Surgical Management of the Following Congenital and Acquired Deformities.</p> <p><u>Congenital Deformities</u></p> <ul style="list-style-type: none"> <li>• CTEV</li> <li>• CDH.</li> <li>• Torticollis.</li> <li>• Scoliosis.</li> <li>• Flat foot.</li> <li>• Vertical talus.</li> <li>• Hand anomalies- syndactyly, polydactyly and ectrodactyly.</li> <li>• Arthrogryposis multiplex congenita(amyoplasia congenita).</li> <li>• Limb deficiencies- Amelia and Phocomelia.</li> <li>• Klippel feil syndrome.</li> <li>• Osteogenesis imperfecta(fragile ossium).</li> <li>• Cervical rib.</li> </ul> <p><u>Acquired Deformities</u></p> <ul style="list-style-type: none"> <li>• Acquired Torticollis.</li> <li>• Scoliosis.</li> <li>• Kyphosis.</li> <li>• Lordosis.</li> <li>• Genu varum, Genu valgum, Genu recurvatum</li> <li>• Coxa vara.</li> <li>• Pes cavus, Pes Planus</li> <li>• Hallux rigidus. Hallux valgus. Hammer toe. Metatarsalgia.</li> </ul>	3	-
9.	<p><b>Inflammatory and Degenerative Conditions</b> Causes, clinical feature, complications, deformities, radiological features, management- conservative and surgical for the following conditions :</p> <ul style="list-style-type: none"> <li>• Osteoarthritis.</li> <li>• Rheumatoid arthritis.</li> <li>• Ankylosing spondylitis</li> </ul>	5	-

	<ul style="list-style-type: none"> <li>• Gouty arthritis.</li> <li>• Psoriatic arthritis.</li> <li>• Hemophilic arthritis.</li> <li>• Still's disease (Juvenile Rheumatoid Arthritis).</li> <li>• Charcot's joints.</li> </ul> <p><b>Connective Tissue Disorders</b></p> <ul style="list-style-type: none"> <li>• Systemic Lupus Erythematosus</li> <li>• Scleroderma</li> <li>• Dermatomyositis</li> <li>• Mixed connective tissue Disease (MCTD)</li> </ul>		
10.	<p><b>Soft Tissue Injuries</b></p> <ul style="list-style-type: none"> <li>• Define terms such as sprains, strains, contusion, tendinitis, rupture, tenosynovitis, tendinosis, bursitis.</li> <li>• Mechanism of injury, clinical features, managements- conservative and surgical of the following soft tissue injuries: <ul style="list-style-type: none"> <li>➤ Meniscal injuries of knee.</li> <li>➤ Ligamentous injuries of knee.</li> <li>➤ Ankle Sprain</li> <li>➤ Wrist sprain</li> <li>➤ Strains- quadriceps, hamstrings, calf, biceps, triceps etc.</li> <li>➤ Contusions- quadriceps, gluteal, calf, deltoid etc.</li> <li>➤ Tendon ruptures-Achilles, rotator cuff muscles, biceps, pectorals etc.</li> </ul> </li> </ul>	5	-
11.	<p><b>Regional Conditions</b></p> <p>Definition, Clinical features and management of the following regional conditions:</p> <ul style="list-style-type: none"> <li>• Shoulder: Periarthritic shoulder (adhesive capsulitis). Rotator cuff tendinitis. Subacromial Bursitis.</li> <li>• Elbow: Tennis Elbow. Golfer's Elbow. Olecranon Bursitis (student's elbow ). Triceps Tendinitis.</li> <li>• Wrist and Hand: De Quervain's Tenosynovitis. Ganglion. Trigger Finger/ Thumb. Mallet Finger, Carpal Tunnel Syndrome, Dupuytren's Contracture.</li> <li>• Pelvis and Hip : IT Band Syndrome. Piriformis Syndrome. Trochanteric Bursitis.</li> <li>• Knee: Osteochondritis Dissecans. Prepatellar and Suprapatellar Bursitis. Popliteal Tendinitis. Patellar Tendinitis. Chondromalacia Patella. Plica Syndrome. Fat Pad Syndrome (Hoffa's syndrome).</li> <li>• Ankle and Foot: Ankle Sprains. Plantar Fasciitis / Calcaneal Spur. Tarsal Tunnel Syndrome. Achilles Tendinitis. Metatarsalgia. Morton's Neuroma</li> </ul>	5	-

12.	<b>Amputations</b> <ul style="list-style-type: none"> <li>• Definition</li> <li>• Levels of amputation of both lower and upper limbs</li> <li>• Indications</li> <li>• Complications</li> <li>• Management</li> </ul>	3	-
13.	<b>Hand Injuries</b> Mechanism of injury, clinical features, and management of the following: <ul style="list-style-type: none"> <li>• Crush injuries.</li> <li>• Flexor and extensor injuries.</li> <li>• Burn injuries of hand.</li> </ul>	2	-
14.	<b>Cervical and Lumbar Pathology</b> Causes, clinical feature, patho-physiology, investigations, management-Medical and surgical for the following : <ul style="list-style-type: none"> <li>• Prolapsed intervertebral disc (PID)</li> <li>• Spinal Canal Stenosis.</li> <li>• Spondylosis (cervical and lumbar)</li> <li>• Spondylolysis.</li> <li>• Spondylolisthesis.</li> <li>• Lumbago/ Lumbosacral strain.</li> <li>• Sacralisation. Lumbarisation.</li> <li>• Coccydynia.</li> <li>• Hemivertebra.</li> </ul>	3	-
15.	Re-constructive surgeries in Polio & cerebral palsy (bone & soft tissues)	3	-
16.	<b>Syndromes</b> Causes, Clinical features, complications, management-conservative and surgical of the following: <ul style="list-style-type: none"> <li>• Cervico brachial syndrome</li> <li>• Thoracic outlet syndrome</li> <li>• Vertebro- basilar syndrome</li> <li>• Scalenus syndrome</li> <li>• Costo clavicular syndrome</li> <li>• Levator scapulae syndrome</li> <li>• Piriformis syndrome.</li> </ul>	3	-
17.	<b>Orthopedic Surgeries</b> Indications, Classification, Types, Principles of management of the following Surgeries : <ul style="list-style-type: none"> <li>• Arthrodesis</li> <li>• Arthroplasty (partial and total replacement)</li> <li>• Osteotomy</li> <li>• External fixators</li> </ul>	3	-

	<ul style="list-style-type: none"> <li>Spinal stabilization surgeries (Harrington's, Luque rod, Steffi plating) etc.</li> </ul>		
<b>CLINICAL -</b>			32
Independent Clinical Orthopaedic evaluation, presentation & recording of : <ul style="list-style-type: none"> <li>1 acute soft tissue injury [including nerve injury],</li> <li>2 cases of infections of bones and joints</li> <li>2 cases of degenerative arthritis of extremity joints,</li> <li>2 degenerative arthritis of spine, 2 chronic backaches,</li> <li>1 case of acute P.I.D</li> <li>1 post operative cases of fractures of extremities</li> <li>1 traumatic paraplegia/quadriplegia</li> </ul> OBSERVATION: At least 2 surgeries of fracture internal fixation, one knee/hip replacement & Re-constructive surgery of the tendons

### SCHEME OF EXAMINATION

Written		Total
IA	Final exam	Final exam
20	80	100

**Periodical Examination:**

- Written Examination:-20 MCQ for 20 marks , 20 minutes.

**Preliminary Examination / University ( Final) Examination**

- **Written Examination ( 80 marks)**

Sec A	MCQ	20x1=20
Sec B	1. Short Notes Answer any 5 out of 6	5x3=15
	2. Short answer questions Answer any 3 out of 4	3x5=15
Sec C	3. Long Answer Questions (compulsory)	1x15=15
	4. Long Answer Questions Answer any 1 out of 2	1x15=15

- **SUPERVISED PRACTICAL TRAINING:**

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination .

**Internal Assessment Marks**

Theory :-

Periodical exam	= 20 marks
Prelim exam	= 80 marks
Total	= 100 marks

The total shall be Converted to 20 marks (100/5=20)

<b>Learning Objectives:</b>																	
<b>Learning Objectives: A/B/C if applicable</b>																	
At the end of the course, the candidate will																	
<ol style="list-style-type: none"> <li>1. Be able to describe Etiology, Pathophysiology, Signs &amp;Symptoms &amp;Management of the various Neurological and Paediatric conditions.</li> <li>2. Acquire skill of clinical examination of Neurological System.</li> <li>3. Acquire knowledge in brief about intra-uterine development of the foetus</li> <li>4. Be able to describe normal development &amp;growth of a child, importance of immunization &amp; breast-feeding &amp; psychological aspect of development.</li> <li>5. Acquire skill of clinical examination of a neonate /child with respect to neurological, Musculoskeletal, Respiratory &amp; Cardiovascular conditions.</li> </ol>																	
<b>Course Content – (Section A)</b>																	
<b>Neurology</b>																	
Topic Serial No.	Title of content	Hours of teaching/learning															
		Theory	Practical														
1.	Circulation of the brain & spinal cord	1	-														
2.	<b>Neurological Investigations</b> X-Ray, CT, MRI, Evoked Potentials, LP, CSF, EMG, NCV, EEG	2	-														
3.	<b>Cerebro –vascular accidents</b> Define: Stroke, TIA, RIA, Stroke in evolution, Lacunar infarct. Risk Factors, Causes, Investigations, Differential Diagnosis, Management- Medical & Surgical, Complications	2	-														
4.	<b>Movement Disorders</b> Definition, etiology, risk factors, pathophysiology, classification, clinical signs & symptoms, investigations, differential diagnosis, medical management, surgical management and complications of following disorders : <ul style="list-style-type: none"> <li>• Parkinson’s disease</li> <li>• Dystonia</li> <li>• Chorea</li> <li>• Ballismus,</li> <li>• Athetosis</li> <li>• Tics, Myoclonus</li> <li>• Wilson’s disease</li> </ul>	2	-														
5.	<b>Polyneuropathy</b> <ul style="list-style-type: none"> <li>• Classification of Polyneuropathies</li> <li>• Causes, clinical features, management of GBS, Diabetic and Alcoholic Neuropathy</li> </ul>	2	-														

6.	<b>Disorders &amp; Diseases of muscle</b> <ul style="list-style-type: none"> <li>• Classification, investigations, imaging methods, Muscle biopsy, management of muscle diseases, genetic counselling.</li> <li>• Classification, etiology, signs &amp; symptoms of Muscular dystrophy and Myotonic dystrophy</li> </ul>	2	-
7.	<b>Motor neuron diseases</b> Etiology, pathophysiology, classification, clinical signs & symptoms, investigations, differential diagnosis, medical management, and complications of following disorders: <ul style="list-style-type: none"> <li>• Amyotrophic lateral sclerosis</li> <li>• Spinal muscular atrophy</li> <li>• Hereditary bulbar palsy</li> <li>• Neuromyotonia</li> <li>• Post-irradiation lumbosacral polyradiculopathy.</li> </ul>	2	-
8.	<b>Multiple Sclerosis</b> Etiology, pathophysiology, classification, clinical signs & symptoms, investigations, differential diagnosis, medical management, and complications	1	-
9.	<b>Infections of brain and spinal cord</b> Etiology, pathophysiology, classification, clinical signs & symptoms, investigations, differential diagnosis, medical management, surgical management and complications of following disorders: <ul style="list-style-type: none"> <li>• Meningitis</li> <li>• Encephalitis</li> <li>• Neurosyphilis</li> <li>• Herpes</li> <li>• HIV infection</li> <li>• Poliomyelitis and Post-polio syndrome</li> <li>• Leprosy</li> <li>• Tetanus</li> </ul>	2	-
10.	<b>Higher cortical, neuro psychological and neurobehavioral disorders</b> <ul style="list-style-type: none"> <li>• Physiological nature of Epilepsy, classification, clinical features, investigations, medical&amp; surgical management of following disorders – Non-epileptic attacks of childhood, Epilepsy in childhood, Seizers, and Epilepsy syndromes in adult.</li> <li>• Classification and clinical features of Dementia, Alzheimer’s disease.</li> <li>• Causes &amp; investigations of Coma, criteria for diagnosis of Brain death.</li> </ul>	2	-
11.	<b>Cerebellar &amp; Co-ordination disorders</b> <ul style="list-style-type: none"> <li>• Congenital Ataxia</li> <li>• Friedrich’s Ataxia</li> <li>• Tabes dorsalis</li> </ul>	1	-
12.	<b>Disorders of lower cranial nerves &amp; Special Senses</b>	2	-

	Etiology, clinical features, investigations, and management of following disorders <ul style="list-style-type: none"> <li>• Trigeminal neuralgia</li> <li>• Lesions in facial nerve: Facial palsy, Bell's palsy, Hemi facial spasm</li> <li>• Glossopharyngeal neuralgia</li> <li>• Lesions of Vagus, Spinal accessory nerve, Hypoglossal nerve.</li> <li>• Disorders of special senses</li> </ul>		
13.	<b>Disorders of Myoneural Junction</b> Etiology, classification, signs & symptoms, investigations, management, of following Disorders: <ul style="list-style-type: none"> <li>• Myasthenia gravis</li> <li>• Eaton-Lambert syndrome</li> <li>• Botulism</li> </ul>	1	-
14.	<b>Spinal cord Disorders</b> <ul style="list-style-type: none"> <li>• Functions of tracts</li> </ul> Definition, etiology, risk factors, pathophysiology, classification, clinical signs & symptoms, investigations, differential diagnosis, medical management, surgical management and complications of following disorders: <ul style="list-style-type: none"> <li>• Spinal Cord Injury ,</li> <li>• Epidural abscess,</li> <li>• Transverse myelitis,</li> <li>• Spina bifida,</li> <li>• Conus medullaris syndrome</li> <li>• Bowel &amp; Bladder Dysfunction</li> </ul>	2	-
15.	<b>Head injury</b> Etiology, classification, clinical signs & symptoms, investigations, differential diagnosis, medical management, surgical management and complications.	2	-
16.	<b>Brain tumors and spinal tumors</b> Classification, clinical features, investigations, medical and surgical management.	1	-
<b>DESIRABLE TO KNOW AREA</b>			
17.	Disorders of Anterior Horn Cell	1	-
18.	Dysfunction of Autonomous Nervous System	2	-
19.	Cerebrospinal Fluid <ul style="list-style-type: none"> <li>i) Formation &amp; Absorption</li> <li>ii) Status in Various Disorders</li> </ul>	1	-
<b>CLINICAL</b>			
History, Evaluation, presentation and recording of cases in <ul style="list-style-type: none"> <li>• Central nervous system – 3 cases</li> <li>• Peripheral nervous system- 2 cases</li> </ul>		20

80	96	96	272	5	6	6	17	5	3	2	10	20	80	100	20	80	100

**Learning Objectives:**

- At the end of the course, the candidate will
1. Be able to describe the human development & maturation; with special emphasis to sensory, motor, psychological & social aspects and alteration during aging process.
  2. Acquire the skill of detection & objective documentation of the Neurological, Musculoskeletal, cardiovascular & pulmonary dysfunctions such as Pain, altered muscle power mobility, endurance, limb length, posture, gait, hand function & A.D.L. in adult & paediatric conditions & acquire skill & interpretation of Exercise tolerance test to arrive at the Functional diagnosis as per International Classification of Functioning.
  3. Acquire the skills to use on patients, the therapeutic currents, for Electro-diagnosis of sensory, & motor dysfunction & pain.
  4. Be able to describe the physiology of nerve conduction & motor units, interpretation of Normal & Abnormal EMG, Nerve Conduction studies & Late responses.
  5. Acquire the simple skills of mobilization of the extremities on models
  6. Acquire the Neuro therapeutics skills on models
  7. Be able to do Interpretation of common investigations used for functional diagnosis.

**Course Content – PHYSICAL & FUNCTIONAL DIAGNOSTIC SKILLS**

Topic Serial No.	Title of content	Hours of teaching/learning	
		Theory	Practical
1	<b>ASSESSMENT OF MUSCULO SKELATAL FUNCTION</b> SOAP Format of Assessment :	25	
2	<ul style="list-style-type: none"> <li>• Demographic Data Collection</li> <li>• Chief Complaint</li> <li>• History Taking</li> </ul> <b>ASSESSMENT OF PAIN</b> <ul style="list-style-type: none"> <li>• Intensity &amp; quality</li> <li>• Body Diagram</li> <li>• Objective assessment &amp; documentation – VAS, Mc Gill’s modified questionnaire, Numerical Rating Scale</li> <li>• Assessment of Posture</li> <li>• Assessment of Gait</li> <li>• Palpation : Limb Length and Girth measurement</li> <li>• Selective Tissue Tension Testing: Examination of joint integrity (Contractile tissNon contractile tissues)</li> <li>• Active movement</li> </ul>		

	<ul style="list-style-type: none"> <li>• Passive movement : Assessment of accessory movement &amp; End feel</li> <li>• Resisted isometric contraction</li> <li>• Tightness Testing</li> <li>• Assessment of Muscle Strength (Group and Individual)</li> <li>• Special Tests</li> </ul>		
3	Observational Movement analysis and Analysis of Muscle Work Assessment of articular & extra- articular soft tissue status <ul style="list-style-type: none"> <li>• Myofascial assessment</li> <li>• Acute &amp; Chronic muscle hold</li> </ul>		
4	Outcome Measures		
5	Functional Diagnosis using ICF		
6	Interpretation of X-ray of extremities & spine, routine, bio-chemical investigation		
<b>ASSESSMENT OF HAND</b>		<b>5</b>	-
1	Sensations		
2	Mobility of joints		
3	Strength		
4	Special Tests like Froment's Sign, Bunnel – Litter's Test,		
5	Phalen's Test, Tinels Sign, Wartenberg's Sign Hand Function – Precision and Power grips		
<b>ASSESSMENT OF NEUROMUSCULAR FUNCTION</b>		<b>25</b>	-
1	Higher functions		
2	<ul style="list-style-type: none"> <li>• Cranial nerves</li> </ul>

2	Mobilization methods – Kaltonborn
3	Clinical Electromyography – Kimura
4	Orthopaedic Physical therapy – Donnatelli
5	Exercise &Heart – Wenger
6	Exercise Physiology – William D Mc 'Ardle
7	Facilitation techniques based on NDT principles by Lois Bly Allison Whiteside
8	Neurological Examination by John Patten
9	Movement therapy in Hemiplegia by Brunnstrom
10	Cash textbook of Physiotherapy in neurological conditions by Patricia Downie

**SCHEME OF EXAMINATION**

Written		Total	Practical		Total
IA	Final exam	Final exam	IA	Final exam	Final exam
20	80	100	20	80	100

**Periodical Examination:**

- Written Examination:-20 MCQ for 20 marks , 20 minutes.
- Practical Examination:- 20 marks

## Preliminary Examination / University ( Final) Examination

- **Written Examination ( 80 marks)**

Sec A	MCQ	20x1=20
Sec B	1. Short Notes Answer any 5 out of 6 2. Short answer questions Answer any 3 out of 4	5x3=15 3x5=15
Sec C	3. Long Answer Questions (compulsory) 4. Long Answer Questions Answer any 1 out of 2	1x15=15 1x15=15

- **Practical Examination ( 80 marks)**

<b>Long Case + Journal (Case Based Evaluation)</b>	<b>35 + 5 = 40</b>
<b>Short Case (Technique/Skill Based Evaluation)</b>	<b>20x1=20</b>
<b>Spots (X Ray, ABG, PFT, EMG, NCV, Outcome Measures)</b>	<b>5x4=20</b>

- **SUPERVISED CLINICAL TRAINING**

- Journals = 5 marks

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination

### Internal Assessment Marks

Theory / Practical :-

Periodical exam	= 20 marks
Prelim exam	= 80 marks
Total	= 100 marks

The total shall be Converted to 20 marks (100/5=20)

<b>Course Title :- Obstetrics and Gynecology</b>

### Learning Objectives:

At the end of the course the candidate will

1. Understand & describe pre operative evaluation various surgical indications in abdominal thoracic, Neuro Surgical & Peripheral vascular conditions.
2. Understand surgical steps & approaches in short & should be able to describe components of soft tissues cut to reach target tissue & complications.
3. Assess post operative complications & its implications in ward treatment, prognosis, morbidity & mortality.
4. Describe effects of surgical trauma & Anaesthesia in post operative course.
5. Understand classify, clinically assess, evaluate & describe surgical management in brief in.
  - a) Wounds and Ulcers
  - b) Burns
  - c) Head Injuries
6. Be able to read & interpret finding of X-ray chest & Abdomen, CT Scan, USG.

### Course Content

Topic Serial No.	Title of content	Hours of teaching/learning	
		Theory	Practical
1.	Infection and inflammation-acute / chronic-signs, symptoms, complications & management.	4	-
2.	<b>Wounds and ulcers</b> – classification, healing, management.	4	2
3.	<b>Abdominal Surgeries:</b> <ul style="list-style-type: none"> <li>• Surgical anatomy of Anterior Abdominal wall</li> <li>• Surgical approaches.</li> <li>• Common abdominal surgeries like Cholecystectomy, Colostomy, Ileostomy, Gastrectomy, Hernias, Appendicectomy, Nephrectomy, Prostatectomy.</li> </ul>	3	2

4.	<p><b>Thoracic surgeries</b></p> <ul style="list-style-type: none"> <li>• Thoracotomy - Definition, Types of Incisions with emphasis to the site of incision, muscles cut and complications.</li> </ul> <p><b>A) Lung surgeries:</b></p> <ul style="list-style-type: none"> <li>• Pneumonectomy</li> <li>• Lobectomy,</li> <li>• Segmentectomy – Indications, Physiological changes and Complications</li> <li>• Thoracoplasty</li> <li>• Pleurectomy</li> <li>• Pleurodesis and Decortication of the Lung.</li> <li>• Intercostal Drainage System</li> </ul> <p><b>B) Cardiac surgeries</b></p> <ul style="list-style-type: none"> <li>• An overview of the Cardio-Pulmonary Bypass Machine</li> <li>• Extracardiac Operations: Closed Heart surgery, Open Heart surgery.</li> <li>• Transplant Surgery – Heart, Lung and Kidney – Indications, Physiological changes and Complications</li> <li>• Chest Injuries, evaluation, management.</li> </ul>	3  4  4	2  3  3
5.	<p><b>Peripheral vascular diseases</b> Definition, Etiology, Clinical features, signs and symptoms, complications, management and treatment of following diseases:</p> <ul style="list-style-type: none"> <li>• Atherosclerosis</li> <li>• Arteriosclerosis</li> <li>• Buerger's</li> <li>• Raynauds</li> <li>• Varicose veins &amp; DVT</li> </ul>	4	
6.	<p><b>Burns and Plastic Surgery</b></p> <ul style="list-style-type: none"> <li>• Burns- causes, classification, ward management, post burn contractures, various Reconstructive &amp; plastic surgeries</li> <li>• Skin grafts/flaps- pedicle/ Tube /Muscle flap Types, indications with special emphasis to burns/ wounds, ulcers, post surgical head, neck, face defects and reconstruction.</li> <li>• Hypertrophic scar &amp; keloid – management c]-Principles of tendon transfers-with special emphasis to hand, foot &amp; facial paralysis</li> </ul>	6	-
7.	<p><b>Surgical Oncology –</b> Cancer – definition, types, clinical manifestations of cancer, Staging of Cancer, surgical procedures involved in the management of cancer.</p>	3	-
8.	Bariatric Surgeries	2	-
9.	<b>Emergency Surgical Procedures:</b> Tracheostomy, Indications: steps, post operative care	3	-
10.	<b>Introduction, Indications and Complications of following Neuro surgeries</b>	5	-

	<ul style="list-style-type: none"> <li>• Burr-hole, Craniotomy</li> <li>• Cranioplasty</li> <li>• Deep brain stimulation</li> <li>• Shunting</li> <li>• Laminectomy</li> <li>• Hemilaminectomy</li> <li>• Microvascular decompression surgery</li> <li>• Embolization</li> <li>• Ablative surgery - Thalamotomy and Pallidotomy</li> <li>• Coiling of aneurysm and Clipping of aneurysm</li> <li>• Neural implantation</li> </ul>		
11.	<p><b>Surgical trauma:</b></p> <ul style="list-style-type: none"> <li>• Response of body</li> <li>• Effect of Anesthesia,</li> <li>• Shock &amp; its types.</li> <li>• Fluid &amp; electrolyte balance.</li> </ul> <p>Total Parenteral Nutrition.</p>	4	-
12.	<p><b>Common ENT problems</b></p> <ul style="list-style-type: none"> <li>• ENT conditions &amp; its management : Otitis Media</li> <li>• Surgical treatments in VII (facial) &amp; VIII nerve palsy</li> </ul>	5	-
13.	<b>Clinical Radiology-X-ray-chest-normal/abnormal</b>	4	-
14.	<p>NICE TO KNOW AREA</p> <ul style="list-style-type: none"> <li>• Various eye problems – surgeries for III, IV nerve palsy, cataract IOL.</li> <li>• Surgeries on arteries, veins (Vascular surgery)</li> </ul>	3 3	
15.	<p><b>CLINICAL:</b> Evaluation, presentation &amp; recording of one case each in –1]-burns, 2]-wound &amp; ulcer, 3] Head Injury, 4] Peripheral vascular condition 5] Post Radical mastectomy 6] Post thoracic surgery, 7]-post abdominal surgery, 8] Post oral cancer excision, 9] Renal Surgery</p> <p><b>DESIRABLE TO KNOW</b> Auscultation &amp; its interpretation, with special emphasis to Pulmonary Function, Reading &amp; Interpretation of the X-ray chest, P.F.T., Blood-Gas analysis-</p>	32

**Learning Objectives:** At the end of the course the candidate will

1. Be able to describe the human development & maturation; with special emphasis to sensory, motor, psychological & social aspects and alteration during aging process.
2. Acquire the skill of detection & objective documentation of the Neurological, Musculoskeletal, cardiovascular & pulmonary dysfunctions such as Pain, altered muscle power mobility, endurance, limb length, posture, gait, hand function & ADLs in adult & paediatric conditions & acquire skill & interpretation of Exercise tolerance test to arrive at the Functional diagnosis as per International Classification of Functioning.
3. Acquire the skills to use on patients, the therapeutic currents, for Electro-diagnosis of sensory, & motor dysfunction & pain.
4. Be able to describe the physiology of nerve conduction & motor units, interpretation of Normal & Abnormal EMG, Nerve Conduction studies & Late responses.
5. Acquire the simple skills of mobilization of the extremities on models
6. Acquire the Neuro therapeutics skills on models
7. Be able to do Interpretation of common investigations used for functional diagnosis.

### SCHEME OF EXAMINATION

Written		Total	Practical		Total
IA	Final exam	Final exam	IA	Final exam	Final exam
20	80	100	20	80	100

#### Periodical Examination:

- Written Examination:-20 MCQ for 20 marks, 20 minutes.
- Practical Examination:- 20 marks

#### Preliminary Examination / University ( Final) Examination

- Written Examination ( 80 marks)

### SCHEME OF EXAMINATION

#### Theory-80 marks Internal Assessment 20 marks

Sec A	MCQ	20x1=20
Sec B	1. Short Notes-Answer any 5 out of 6 2. Short answer questions-Answer any 3 out of 4	5x3=15 3x5=15
Sec C	1. Long Answer Questions (compulsory) 2. Long Answer Questions-Answer any 1 out of 2	1x15=15 1x15=15

#### PRACTICAL

Long Case (Manual Therapy , Neuro Techniques)	35+5=40
Short Case (Simulated Cases)	20x1=20
5 Spots (EMG-NCV, Manual and Neuro Techniques)+ Journal	5x3=15 + 5 = 20

- **SUPERVISED PRACTICAL TRAINING: (Journal=Case Records/Case Presentations) 05 MARKS**

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination

#### Internal Assessment Marks

Theory /Practical-

Periodical exam	= 20 marks
Prelim exam	= 80 marks
Total	= 100 marks

The total shall be Converted to 20 marks ( $100/5=20$ )

Course Title :- <b>BIO-ENGINEERING &amp; PROFESSIONAL ETHICS</b>																	
Course Code:- <b>PT 604</b>																	
Course Credit for <b>BIO-ENGINEERING &amp; PROFESSIONAL ETHICS</b>

<b>Learning Objectives:</b>																	
1. Acquire knowledge about biomechanical principles, of application of variety of aids & appliances used for ambulation, protection & prevention. 2. Acquire knowledge about various material used for splints / Orthosis & prosthesis--selection criteria. 3. Acquire the skill of fabrication of simple splints made out of low cost material																	
<b>Course Content – (section A/B/C if applicable)</b>																	
Topic Serial No.	Title of content	Hours of teaching/learning															
		Theory	Practical														
1.	Classification of Aids & appliances.	1	-														
2.	Biomechanical principles in designing of appliances	1	-														
3.	Knowledge of various component of prosthesis & orthosis. Assessment procedures for static & dynamic alignment of the following: Aids & appliances, Splints, Orthosis for spine, upper & lower limb, Prosthesis for Lower limbs & Upper limbs.	2 1	-														
4.	Prescription and designing of footwear and modifications	1	-														
5.	Assessment of Gait post Prosthetic / Orthotic (Lower Limb) fitting.	2	-														
6.	Designing and construction of adaptive devices	2	-														
7.	<b>Desirable to know –</b> Care of prosthesis & orthosis.	1	-														
8.	Methods of donning & doffing	1	-														
9.	Decision making for prosthetic fitting	1	-														
10.	<b>Nice to know –</b> Psychological aspect of orthotic and prosthetic application ( practical analysis with patient discussion)	1	-														
11.	<b>Project-</b> To fabricate one Temporary splint in each by using P.O.P, aluminum strips, sheets, wires, rubber bands, rexin, orfit etc. <ul style="list-style-type: none"> <li>• Cock up [dorsal / volar]</li> <li>• Outrigger.</li> <li>• Opponence splint.</li> <li>• Anterior and posterior guard splints for gait training.</li> <li>• Foot drop splint.</li> <li>• Facial splint.</li> <li>• Mallet Finger Splint.</li> <li>• C bar for 1st web space of hand</li> </ul>	-	24														

<b>SECTION - II</b>			
<b>Professional Practice</b>			
<b>(Including Ethics, Evidence Based Practice, Administration, Management &amp; Marketing)</b>			
1.	Concepts of morality, Ethics & Legality-rules of professional conduct & their Medico-legal & moral implications-The need of Council Act for Physiotherapy.	2	-
2.	Constitution & Functions of the Indian association of Physical therapy	1	-
3.	Functioning of the World Confederation of Physical therapy [W.C.P.T.] & its various branches-Special Interest groups [brief]	1	-
4.	Role of W.H.O.& WCPT	1	-
5.	Introduction to Evidence Based Practice: Definitions, Evidence Based Physiotherapy Practice	1	-
6.	Management studies related to-local health care organization management & structure- planning delivery with quality assurance & funding of service delivery information technology -Time management - career development in Physiotherapy.	2	-
7.	Administration - principles-based on the Goal & functions - at large hospital set up/domiciliary services/private clinic /academic.	2	2
8.	Methods of maintaining records	1	2
9.	Budget-planning.	1	2
10.	Performance analysis--physical structure /reporting system [man power / status/functions /quantity & quality of services/turn over-cost benefit- revenue contribution.	1	2

Learning Objectives:																		
<p>This course is formulated on the “Problem based” method. At the end of the course, the candidate will –</p> <ol style="list-style-type: none"> <li>1. Be able to identify, discuss &amp; analyze, the Musculoskeletal Dysfunction in terms of Biomechanical, Kinesiology &amp; Biophysical basis &amp; correlate the same with the provisional diagnosis, routine radiological &amp; Electrophysiological investigations &amp; arrive at appropriate Functional diagnosis with clinical reasoning.</li> <li>2. Be able to plan &amp; Prescribe as well as acquire the skill of executing short &amp; long term Physiotherapy treatment by selecting appropriate modes of Mobilization / Manipulations, Electro-Therapy, Therapeutic exercise &amp; appropriate Ergonomic advise for the relief of pain, restoration / Maintenance of function &amp; rehabilitation for maximum functional independence in A.D.L. at home &amp; work place.</li> </ol>																		
Course Content																		
Topic Serial No.	Title of content	Hours of teaching/learning																
		Theory	Practical															
1.	<b>Fractures and dislocation of the spine, extremities – classification, management &amp; complications.</b>	<b>10 hrs</b>	<b>15 hrs</b>															
	<ul style="list-style-type: none"> <li>• PT assessment and management of upper limb fractures and dislocations.</li> <li>• PT assessment and management of lower limb fractures and dislocations including pelvis.</li> <li>• PT assessment and management of spinal fractures</li> </ul>																	

	<ul style="list-style-type: none"> <li>• PT management in complications - early and late - shock, compartment syndrome, VIC, fat embolism, delayed and mal-union, RSD, myositis ossificans, AVN, pressure sores etc.</li> <li>• Principles of PT management in fractures - Guidelines for fracture treatment during period of immobilization and guidelines for treatment after immobilization period.</li> </ul>		
2.	<b>Physiotherapy Management of Deformities</b>	<b>4 hrs</b>	<b>10 hrs</b>
	<ul style="list-style-type: none"> <li>• Congenital: CTEV, CDH, Torticollis, pes planus, pes cavus and other common deformities.</li> <li>• Acquired: scoliosis, kyphosis, coxa vara, genu varum, valgum and recurvatum.</li> </ul>		
3.	<b>Infectious diseases of the bone &amp; joints</b>	<b>4 hrs</b>	-
	<ul style="list-style-type: none"> <li>• Osteomyelitis – acute and chronic</li> <li>• Septic arthritis and Pyogenic arthritis</li> <li>• TB spine and major joints - knee and hip</li> </ul>		
4.	<b>Degenerative and Inflammatory conditions</b>	<b>4 hrs</b>	-
	<ul style="list-style-type: none"> <li>• Osteoarthritis - emphasis mainly on knee, hip and hand</li> <li>• Rheumatoid Arthritis</li> <li>• Ankylosing spondylitis</li> <li>• Gout</li> <li>• Perthes disease</li> </ul>		
5.	<b>Metabolic &amp; hormonal disorders of the bone tissue - Osteoporosis.</b>	1 hrs	-
6.	<b>Management of Peripheral Nerve Injury</b>	2 hrs	5 hrs
7.	<b>Physiotherapy following re-constructive surgeries in Cerebral Palsy, Poliomyelitis and Leprosy.</b>	2 hrs	5 hrs
8.	<b>Amputation</b>	2 hrs	5 hrs
	<ul style="list-style-type: none"> <li>• Definition, levels, indications, types, PT assessment, aims, management pre</li> <li>• And post operatively.</li> <li>• PT management with emphasis on stump care and bandaging.</li> <li>• Prosthesis Prescription and Training</li> </ul>		
9.	<b>Traction</b>	2 hr	2 hrs
	• Effect, Types, Modes, Indications, Contraindications, Dosage	2 hrs	
10.	<b>Spinal conditions</b>	2 hr	12 hrs
	<p>PT assessment, aims, and management and home program of the following conditions</p> <ul style="list-style-type: none"> <li>• Cervical spondylosis</li> <li>• Lumbar spondylosis</li> <li>• Intervertebral disc prolapse</li> <li>• Spinal canal stenosis</li> <li>• Spondylolisthesis</li> <li>• Spondylolysis</li> <li>• Coccydynia</li> </ul>		

11.	<b>Shoulder joint</b>	5 hrs	10 hrs
	<ul style="list-style-type: none"> <li>• TOS</li> <li>• RSD</li> <li>• Shoulder instabilities</li> <li>• Periarthritis Shoulder</li> <li>• Rotator cuff Tears : Conservative and Post-Surgical PT Management</li> <li>• Impingement syndrome (Supraspinatus and Bicipital tendonitis) - conservative and Post operative (sub-acromial decompression) PT management.</li> <li>• AC joint injuries- rehabilitation.</li> </ul>		
12.	<b>Elbow and forearm</b>	1 hr	5 hrs
	a. Tennis and Golfer's elbow		
13.	<b>Wrist and Hand</b>	3 hrs	5 hrs
	<ul style="list-style-type: none"> <li>• Wrist sprains.</li> <li>• Dequervain's Tenosynovitis.</li> <li>• Trigger and Mallet finger</li> <li>• Repair of ruptured Flexor and Extensor tendons: Post operative PT management</li> <li>• Carpal tunnel syndrome.</li> <li>• Hand injury- types and their management</li> </ul>		
14.	<b>Hip</b>	2 hrs	5 hrs
	<ul style="list-style-type: none"> <li>• Joint surgeries - hemi and total hip replacement- Post operative PT management</li> </ul>		
15.	<b>Knee</b>	6 hrs	12 hrs
	<ul style="list-style-type: none"> <li>• ACL, PCL and MCL reconstruction surgeries - Post operative rehabilitation.</li> <li>• Meniscectomy and meniscal repair - Post operative management.</li> <li>• Pre patellar and Subacromial bursitis.</li> <li>• Anterior Knee pain : PFPS, Plica syndrome, patellar dysfunction and Hoffa's syndrome etc. - conservative management.</li> <li>• TKR- rehabilitation protocol.</li> <li>• Patellar tendon ruptures and Patellectomy- rehabilitation.</li> </ul>		
16.	<b>Ankle and foot</b>	4 hrs	5 hrs
	<ul style="list-style-type: none"> <li>• Ankle instability: Lateral ligament sprain of ankle</li> <li>• Ligamentous tears- Post operative management.</li> <li>• TA rupture.</li> <li>• Plantar fasciitis, metatarsalgia, hammer toe, turf toe</li> </ul>		
17.	<b>Hamstring strains &amp; Quadriceps contusion</b>	1 hr	1 hr
18.	<ul style="list-style-type: none"> <li>• PT Management for</li> <li>• Sacro-iliac joint dysfunction</li> <li>• Sacralisation</li> <li>• Lumbarisation,</li> </ul>	2 hr	

19.	<b>Orthopedic surgeries</b>	1 hr	1 hr
	Pre and post operative PT assessment, goals, precautions and PT management of following surgeries such as: <ul style="list-style-type: none"> <li>• Arthrodesis</li> <li>• Osteotomy</li> </ul>		
20.	<b>Nice to know</b> <ol style="list-style-type: none"> <li>1. Total shoulder replacement and Hemi replacement: Post operative PT management</li> <li>2. Excision of radial head - Post operative PT management</li> <li>3. Radiological positions, angle calculations for Orthopaedic problems by X ray</li> <li>4. Biomechanics of Internal fixators &amp; implants.</li> <li>5. Physiotherapy Management for Tumours of the bone.</li> </ol>	1hr 1 hr 1 hr 1 hr 1 hr

IA	Final exam	Final exam	IA	Final exam	Final exam
20	80	100	20	80	100

#### Periodical Examination:

- Written Examination:-20 MCQ for 20 marks, 20 minutes.
- Practical Examination:- 20 marks

#### Preliminary Examination / University (Final) Examination

- **Written Examination ( 80 marks)**

Sec A	MCQ	20x1=20 marks
Sec B	1. Short Notes - Answer any 5 out of 6	5x3=15 marks
	2. Short answer questions - Answer any 3 out of 4	2x5=15 marks
Sec C	3. Long Answer Question(Compulsory)	1x15=15 marks
	4. Long Answer Question( Answer any 1 out of 2)	1x15=15 marks

- **Practical Examination ( 80 marks)**

S.No.		Marks
1	1. Long Case: based on the History 10 marks, Evaluation 10 marks, Treatment Plan on Patient 20 marks	40 Marks
	2. Short Case: Simulated	20 Marks
	3. Five spots: spots based on, X – ray (limb, spine), Orthosis, Prosthesis, Metal implants etc 3 minutes each spot and 3marks per spot (3x5) +Journal(5)	15+5=20 Marks

- **Supervised Clinical Training :Journal (05 marks)**

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination.

#### Internal Assessment Marks

Theory /Practical:-

Periodical exam = 20 marks

Prelim exam = 80 marks

Total = 100 marks

The total shall be Converted to 20 marks (100/5=20)

**Course Title :- Physiotherapy in Community Based Rehabilitation**  
**Course Code:- PT 702**

**Course Credit for Physiotherapy in Community based Rehabilitation**

Hours				Hrs/Wk				Credits				Evaluation Pattern					
Th	Pr	SPT	Tot	Lec	Pr	SPT	Tot	Lec	Pr	SPT	Tot	Written		Total	Practical		Total

64	96	96	256	4	6	6	16	4	3	2	9	20	80	100	20	80	100

**Learning Objectives:**

At the end of the course the candidate will:

- Be able to describe:
  - The general concepts about health, disease and physical fitness.
  - Physiology of aging process and its influence on physical fitness.
  - National policies for the rehabilitation of disabled – role of PT.
  - The strategies to access prevalence and incidence of various conditions responsible for increasing morbidity in the specific community – role of PT in improving morbidity, expected clinical and functional recovery, reasons for non-compliance in specific community environment solution for the same.
  - The evaluation of disability and planning for prevention and rehabilitation.
  - Community Based Rehabilitation in urban and rural set up.
- Be able to identify with clinical reasoning the prevailing contextual (e.g. environmental and psycho-social cultural) factors, causing high risk responsible for various dysfunctions and morbidity related to sedentary life style and specific community like women, children, aged as well as industrial workers and describe planning strategies of interventional policies to combat such problems.
- Be able to conduct as small project {cross sectional study /survey} to access to the prevalence of specific physical health problem and /or morbidity in specific community – which may be based at the institutional level or in field.

**Course Content**

Topic Serial No.	Title of content	Hours of teaching/learning

## SCHEME OF EXAMINATION

Written		Total	Practical		Total
IA	Final exam	Final exam	IA	Final exam	Final exam
20	80	100	20	80	100

### Periodical Examination:

- Written Examination:-20 MCQ for 20 marks, 20 minutes.
- Practical Examination:- 20 marks

### Preliminary Examination / University (Final) Examination

- **Written Examination ( 80 marks)**

Sec A	MCQ	20x1=20 marks
Sec B	1. Short Notes - Answer any 5 out of 6 2. Short answer questions - Answer any 3 out of 4	5x3=15 marks 2x5=15 marks
Sec C	1. Long Answer Question(Compulsory) 2. 4. Long Answer Question( Answer any 1 out of 2)	1x15=15 marks 1x15=15 marks

- **Practical Examination ( 80 marks)**

<b>S.No.</b>		<b>Marks</b>
<b>1</b>	1.Long Case: Women's health/Geriatric/Industrial health/health promotion	40 Marks
	2.Short Case: Simulated	20 Marks
	3.Spots + Journal	15 + 5 = 20 M.

- **SUPERVISED PRACTICAL TRAINING:**

- Case Presentation & Documentation: = 5 marks

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination

#### Internal Assessment Marks

Theory/ Practical :-

Periodical exam = 20 marks

Prelim exam = 80 marks

Total = 100 marks

The total shall be Converted to 20 marks (100/5=20)

Course Title :- Physiotherapy in Paediatric Conditions																	
Course Code:- PT 703 A																	
Course Credit for Physiotherapy in Paediatric Conditions

64	64	96	160	2	2	6	10	2	1	2	5	10	40	50	10	40	50

#### Learning Objectives:

- 1.Acquire the knowledge of normal neurodevelopment, with specific reference to Locomotion
- 2.Embryology of nervous system, Embryology of cardiovascular, pulmonary & musculoskeletal system , Developmental & congenital anomalies, Deformities of vertebral column, deformities of chest wall

#### Course Content

Topic Serial No.	Title of content	Hours of teaching/learning	
		Theory	Practical
1.	Embryology of nervous system, Embryology of cardiovascular, pulmonary & musculoskeletal system , Developmental deformities & congenital anomalies, Deformities of vertebral column, deformities of chest wall	2 hrs	--
2.	Congenital dislocation of hip ,CTEV, vertical talus, Blount disease, Perthe's disease, slipped capital femoral epiphysis, limb length discrepancies and Osteogenesis Imperfecta.	4 hrs	2 hrs
3.	Traumatic injuries in child – fractures, dislocations, epiphyseal injuries	2 hrs	2 hrs
4.	Assessment of Reflex & Reactions	1 hr	2 hrs
5.	Cerebral palsy -assessment & management with approaches, Roods, Vojta, Sensory integration, N.D.T	3 hrs	10 hrs
6.	Attention deficit Hyperactive disorder, Autism	1 hr	1 hr
7.	Gravitational insecurity, Mental retardation, Epilepsy	2 hrs	2 hrs
8.	Genetic disorder – Down's syndrome, Marfan's syndrome	1 hr	
9..	Movement disorder – Chorea, Athetosis, Dystonia, Choreoathetosis, Ataxia	1 hr	2 hrs
10.	Disorder of muscle – Muscular dystrophy ( Duchenne's, Becker's, Limb girdle, Facio-scapulohumeral, Spinal muscular atrophy)	3 hrs	2 hrs
11.	Developmental anomalies – Spina bifida, hydrocephalus, cranio-vertebral junction anomalies	2 hrs	4 hrs
12.	Traumatic head injury	2 hrs	1 hr
13.	Neonatal ICU, Paediatric ICU, Complications of low birth Weight	2 hrs	2 hrs
14..	Anatomical & physiological differences of cardio-vascular & respiratory system in neonates, childhood & adults	1 hr	
15.	Fetal circulation ,Congenital heart disease – pathodynamics, clinical presentation, investigation, medico-surgical & physiotherapy management of cyanotic & acyanotic heart disease , Rheumatic heart disease	2 hrs	1 hr
16.	Respiratory disorder in childhood – IRDS, Bronchopulmonary dysplasia, pneumonia, lung abscess, asthma, cystic fibrosis, bronchitis, bronchiectasis, bronchiolitis, pertussis, CROUP, epiglottitis, chronic lung disease, primary ciliary dyskinesia, fatigue, sleep apnoea, hyperventilation syndrome	2 hrs	1 hr
17.	Role of Orthotics in Paediatric conditions.	1 hr	--

Course Content																	
Topic Serial No.	Title of content	Hours of teaching/learning															
		Theory			Practical												
1	Structure and function of Nervous System	1			-												
2	Theories of motor control & motor learning	1			-												
3	Neurological Assessment <ul style="list-style-type: none"> <li>• Assessment of Higher mental functions,Cranial Nerves,</li> <li>• Sensory system, Motor system,Reflexes,Co-ordination,</li> </ul>	5			3												

	<ul style="list-style-type: none"> <li>Balance, functional abilities, neuropathic pain and investigation.</li> </ul>		3
4	Understanding sensory system & Organization of sensory strategies for efficient motor output.	1	1
5	Skills of sensory – motor learning & Neuro-muscular skeletal training	1	3
6	Application of skills of Co-ordination & Balancing exercises by using techniques based on Neuro-physiological principles	1	3
7	Application of transfer & functional re-education exercises-Postural exercises, & Neurological Gait Assessment and management/ training	1	4
8	Principles of Application of Neuro therapeutic skills like PNF, NDT, Brunnstrom & Rood 's approaches.	2	5
9	Principles and methods of using tools of Therapeutic gymnasium such as Vestibular ball, tilt board, bolsters, etc. in neurological conditions	1	3
10	<p>Evaluation &amp; physiotherapy assessment with appropriate reasoning for planning &amp; implementation of treatment technique for following neurological conditions:</p> <p>i. Cerebrovascular Accidents:</p> <ul style="list-style-type: none"> <li>Hemiplegia,</li> <li>Disorders of cerebral circulation</li> <li>Space occupying lesions</li> </ul> <p>ii. Disorders of spinal cord</p> <ul style="list-style-type: none"> <li>Spinal Cord Injury</li> <li>Syringomyelia,</li> <li>Transverse myelitis</li> <li>Sub-acute combined degeneration of spinal cord</li> </ul> <p>iii. Traumatic Head Injury</p> <p>iv. Infections of Nervous System</p> <ul style="list-style-type: none"> <li>Meningitis</li> <li>Encephalitis</li> <li>Neurosyphilis</li> <li>Tabes dorsalis</li> <li>Poliomyelitis and Post Polio Residual Paralysis</li> <li>Leprosy</li> </ul> <p>v. Demyelinating diseases of the nervous system</p> <ul style="list-style-type: none"> <li>Multiple sclerosis</li> </ul> <p>vi. Lesions of Extra-pyramidal system &amp; Basal ganglia</p> <ul style="list-style-type: none"> <li>Parkinson's Disease</li> <li>Spasmodic torticollis</li> </ul>	<p>2</p> <p>2</p> <p>2</p> <p>2</p> <p>1</p> <p>2</p>	<p>5</p> <p>5</p> <p>2</p> <p>3</p> <p>2</p> <p>4</p>

	<ul style="list-style-type: none"> <li>• Athetosis,Chorea &amp; Dystonia</li> </ul>		
	vii. Degenerative disorders <ul style="list-style-type: none"> <li>• Motor Neuron Diseases</li> <li>• Hereditary Ataxia</li> <li>• Peroneal muscle atrophy, S.M.A</li> </ul>	2	2
	viii. Disorders of Peripheral nerves <ul style="list-style-type: none"> <li>• Traumatic Nerve Injury, Tumors,</li> <li>• Infective &amp; Metabolic lesions of nerves</li> </ul>	2	3
	ix. Disorders of muscles and neuromuscular junction <ul style="list-style-type: none"> <li>• Muscular Dystrophies</li> <li>• Myasthenia Gravis &amp; myasthenia syndrome</li> </ul>		
	x. Polyneuropathy <ul style="list-style-type: none"> <li>• Classification of Polyneuropathies</li> <li>• GBS, Diabetic and Alcoholic Neuropathy</li> </ul>	2	2
	xi.Cerebellar & Co-ordination disorders <ul style="list-style-type: none"> <li>• Congenital Ataxia</li> <li>• Friedrich's Ataxia</li> </ul>	2	4
	<b>Paediatric Neurology</b>		
	a) Developmental milestones and Developmental reflexes		
	b) Neuro developmental screening tests	2	4
	c) Evaluation & Management :		
	• Observation, Palpation, Milestone Examination, developmental reflex Examination,	2	4
	• Higher mental function, Cranial nerve examination, Motor & Sensory examination, Reflex testing,	3	4
	• Differential Diagnosis, Balance & Coordination examination, Gait analysis, Functional analysis,	2	6
	• List of Problems & Complications, Short & Long Term goals		
	d) Use of various Neurophysiological approaches & Modalities in		-
	• High Risk babies		-
	• Minimum brain damage		
	• Developmental disorders		
	• Cerebral palsy		
	• Autism	10	
	• Down's Syndrome		12
	• Hydrocephalus		
	• Spina bifida and spinal dysraphism		

11	<b>Protecting future generations, Protection of the environment</b> <ul style="list-style-type: none"> <li>▪ Why care about the future? Contexts of concern</li> <li>▪ The scope and limits of future related responsibilities Intergenerational; distant generations, all unborn generations?</li> <li>▪ Obligations over health care providers to the possible people of the future?</li> <li>▪ Health care and future generations</li> <li>▪ The relation of bioethics and environmental issues</li> <li>▪ Basic principles of environmental ethics <ul style="list-style-type: none"> <li>i. environmental justice</li> <li>ii. intergenerational justice</li> <li>iii. respect for nature</li> </ul> </li> </ul>	2	
	<b>DESIRABLE TO KNOW</b>		
1	Parent / care takers education about handling of a paralytic patient	1	2
2	Lifting techniques, Wheel chair modifications & adaptive devices	1	4
3	Disorders of autonomic nervous system	2	
	<b>NICE TO KNOW</b>		
1	Embryology of nervous system	2	
2	Psycho-somatic Pain & Paralysis.	1	
3	Fabrication of temporary splints during urgent requirement with clinical reasoning	2	
4	Developing a philosophy for caring.	1	
	<b>CLINICAL</b>		
	Evaluation & treatment planning; its presentation & documentation of minimum ten cases in following: <ul style="list-style-type: none"> <li>• U.M.N. lesion</li> <li>• L.M.N. lesion,</li> <li>• Paediatric Neuro case</li> </ul>

64	96	96	256	4	6	6	16	4	3	2	9	20	80	100	20	80	100

**Learning Objectives:**

At the end of the course, the candidate will -

1. Identify, discuss & analyze cardio-vascular & pulmonary dysfunction, based on Patho-physiological principles, & arrive at the appropriate functional diagnosis,
2. Acquire knowledge of rationale of basic investigative approaches in the medical system, & surgical intervention regimes related to cardio-vascular & pulmonary impairment.
3. Acquire the skill of evaluation & interpretation of functional capacity, using simple exercise tolerance tests, such as 6 minutes walk test, symptom limited test.
4. Be able to select strategies for cure, care & prevention; adopt restorative & rehabilitative measures for maximum possible functional independence of a patient at home, work place & in community.
5. Be able to execute the effective Physio Therapeutic measures [with appropriate clinical reasoning] with special emphasis to Breathing retraining, nebulization, humidification, bronchial hygiene, General mobilization, & Exercise conditioning.
6. Acquire knowledge of the overview of patients` care at the Intensive care area, artificial ventilation suctioning, positioning for bronchial hygiene, & continuous monitoring of the patient at the Intensive care area.
7. Acquire the skill of basic Cardio – pulmonary resuscitation.
8. Be able to execute the effective Physio therapeutic measures with appropriate clinical reasoning to improve general surgical & medical condition.

**Course Content – (section A/B/C if applicable)**

Topic Serial No.	Title of content	Hours of teaching/learning

<b>1</b>	Cash`s Text book for Physiotherapists in Chest, Heart & Vascular diseases- Jaypee bros. Publication
<b>2</b>	Cash`s text book in General Medical & Surgical conditions for Physio therapists
<b>3</b>	Chest Physical therapy & Pulmonary rehabilitation-by Donna Frownfilter
<b>4</b>	Brompton`s hospital guide
<b>5</b>	Physical Rehabilitation - O`sullivan

Reference Books

Sr.No.	Title
<b>1</b>	Physio Therapy in Cardio- Vascular rehabilitation-Webber
<b>2</b>	Exercise & the Heart –Wenger
<b>3</b>	ECG by P.J. Mehta,
<b>4</b>	J. Hampton (Hand book of ECG made easy)
<b>5</b>	Cardiopulmonary Physical therapy by Irwin Scott.
<b>6</b>	Physiotherapy in respiratory care – Alexandra Hough

### SCHEME OF EXAMINATION

Written		Total	Practical		Total
IA	Final exam	Final exam	IA	Final exam	Final exam
20	80	100	20	80	100

**Periodical Examination:**

- Written Examination:-20 MCQ for 20marks , 20 minutes.
- Practical Examination:- 20 marks

## Preliminary Examination / University ( Final) Examination

- **Written Examination ( 80 marks)**

Sec A	1.MCQ	20x1=20 marks
Sec B	2.Short Notes - Answer any 5 out of 6 3.Short answer questions - Answer any 2 out of 3	5x3=15 marks 3x5=15 marks
Sec C	4. Long Answer Questions (compulsory) 5. Long Answer Questions –any 1 out of 2	1X15=15marks 1X15=15marks

- **Practical Examination ( 80 marks)**

S.No.		Marks
1.	Long case History(5),Evaluation(15),Treatment Plan on patient(20)	40
2.	Short case	20
3.	Five spots + journal 5 Spots based on ABG/X -ray/ECG/PFT/RPE/Bruce, protocol etc. 3 minute each spot 3x5=15	15+5=20

- **SUPERVISED PRACTICAL TRAINING:** Journal=5 marks

All the SPT works should be properly documented, signed by the respective teacher in-charge of the subject, indexed in a separate file and should be submitted before the preliminary examination of the semester. It is the responsibility of the student to submit the file(s) to the teacher before the examination

### Internal Assessment Marks

#### Theory/Practical :-

Periodical exam	= 20 marks
Prelim exam	= 80 marks
Total	= 100 marks

The total shall be Converted to 20 marks (100/5=20)

<b>Course Title :- CHOICE BASED COURSE- PHYSIOTHERAPY IN SPORTS</b>																		
<b>Course Code:- PT 803A</b>																		
<b>Course Credit for CHOICE BASED COURSE- PHYSIOTHERAPY IN SPORTS</b>																		
<b>Hours</b>				<b>Hrs/Wk</b>				<b>Credits</b>				<b>Evaluation Pattern</b>						
Th	Pr	SPT	Tot	Lec	Pr	SPT	Tot	Lec	Pr	SPT	Tot	Written		Total	Practical		Total

32	32	96	160	2	2	6	10	2	1	2	5	10	40	50	10	40	50	

**Learning Objectives:**

**At the end of the course, the candidate will**

1. Be able to identify, discuss & analyse, the Musculo skeletal dysfunction in terms of Biomechanical, Kinesiological and Biophysical basis & co-relate the same with the provisional diagnosis, routine radiological & Electro-physiological investigations and arrive at appropriate functional diagnosis with clinical reasoning for fitness training & rehabilitation.
2. Understand the psychosocial factors, environmental factors & individual factors affecting the performance.
3. Use the anatomical rationale for the clinical tests used in differential diagnosis.
4. Be able to identify, discuss & analyse, the various cardio-respiratory function & co-relate the same with the provisional diagnosis, for fitness training & rehabilitation.
5. Lay down rehabilitation protocol for sports specific injuries focusing an early rehabilitation to injuries.
6. Identify the causes prone for injury & prevent them.
7. Guide participants for a confident sports activity & rehabilitation to attain maximal achievement.
8. Understand the role of Sports physiotherapist in the team.

**Course Content**

Topic Serial No.	Title of content	Hours of teaching/learning	
		Theory	Practical
1	Training the aerobic and anaerobic energy system	2	-
2	Physiological responses, changes & adaptations to various exercises - aerobic exercises & anaerobic exercises in Pulmonary, Cardiovascular, Neuromuscular system, Hormones	2	-
3	Detraining effects of cardiovascular, musculoskeletal and nervous system	2	-
4	Sports specific training and cross training.	2	-

<b>5</b>	<b>Musculoskeletal injuries</b> <ul style="list-style-type: none"> <li>• Pre-participation examination</li> <li>• Causes &amp; Mechanism of Sports Injuries, prevention of sports injuries to various structures.</li> <li>• Common acute, chronic and overuse injuries in various sports at: <ul style="list-style-type: none"> <li>➤ Shoulder girdle, Shoulder, Arm, Elbow, Forearm, Wrist &amp; hand</li> <li>➤ Pelvis, hip, thigh, knee, leg, ankle &amp; foot</li> <li>➤ Spine</li> <li>➤ Head</li> <li>➤ Thoracic cage and abdomen</li> <li>➤ vi. Peripheral nerve injuries, injuries to muscles, ligament, tendon, bone, synovial joint structure (with physiological response to injury)</li> </ul> </li> </ul>	2 2 6	- - -
<b>6</b>	<b>Cardiopulmonary section</b> <ul style="list-style-type: none"> <li>• Sporting emergencies &amp; first aid</li> <li>• Cardio pulmonary Resuscitation; Shock management, Internal and External bleeding, Splinting, Stretcher use-Handling and transfer, Management of Cardiac arrest, Acute asthma, epilepsy, drowning, burn, Medical management of mass participation. Heat stroke and Heat illness.</li> </ul>	6	-
<b>7</b>	<b>Various Body measurements:</b> Gross size and mass, length and height measurement, circumference of body parts, Skinfold thickness measurements	3	-
<b>8</b>	<b>Body composition</b> <ul style="list-style-type: none"> <li>• Different Body composition</li> <li>• Various methods to estimate body composition : water displacement method, under water weighing method, skinfold method, surface anthropometry, bioelectrical impedance analysis, ultrasound assessment of fat, arm X-ray assessment of fat, CT assessment of fat</li> </ul>	3	-
<b>9</b>	Electrotherapy in sports injuries	2	-
	<b>PRACTICALS</b>		
<b>1</b>	Taping		2
<b>2</b>	On field Assessment		2
<b>3</b>	Evaluation of Physical Fitness: Assessment of strength, power, endurance (muscular & cardiac), $VO_{2max}$ , flexibility, reaction time and pulmonary function.		8
<b>4</b>	Assessment of lower limb complex: Pelvis, hip, thigh, knee, leg, ankle and foot		10
<b>5</b>	Assessment of upper limb complex: Shoulder girdle, shoulder, arm, elbow, forearm, wrist and hand		10

**Learning Objectives:**

**At the end of the course, the candidate will be able to**

1. Be able to identify, discuss & analyse, the Hand dysfunction in terms of Biomechanical, Kinesiological and Biophysical basis & co-relate the same with the provisional diagnosis, routine radiological & Electro-physiological investigations and arrive at appropriate functional diagnosis with clinical reasoning.
2. Use the anatomical rationale for the clinical tests used in differential diagnosis.
3. Learn the ability to perform an appropriate subjective and physical examination, with development of suitable analytical skills to evaluate data obtained.
4. Further develop clinical reasoning that incorporates theoretical concept with evidence-based practice in the field of Hand rehabilitation.
5. Recognize the implication of dysfunction on the Neuro- Musculoskeletal system on hand function and the student's clinical decision making for rehabilitation.
6. Assess and diagnose all possible findings on the patient to plan a Rehabilitation programme.
7. Lay down rehabilitation protocol for sports specific hand injuries focusing an early rehabilitation to injuries.
8. Identify the causes prone for injury & prevent them.
9. Document patients with scale, outcome measures and assess the progression.
10. Use recent Technique/ approaches to treat & train patients with hand dysfunction in children, adults & geriatrics.

**Course Content**

Topic Serial No.	Title of content	Hours of teaching/learning	
		Theory	Practical
1	General upper extremity examination	1	1
2	Sensory examination of hand	2	1
3	Motor Examination of hand	2	1
4	Functional Evaluation of hand	2	1
5	Outcome measures of hand	2	2
6	PT Management of Flexor tendon injuries	2	2
7	PT Management of Extensor tendon injuries	2	2
8	PT Management of Burnt hand + deformities	2	2
9	PT Management of Arthritic hand + deformities	2	2
10	PT Management of Crush injuries	2	2
11	PT Management of Peripheral Nerve Injuries- median, radial, ulnar, musculocutaneous, axillary	2	2
12	PT Management of Entrapment neuropathies- cubital	2	2

	tunnel,carpal tunnel, supinator tunnel, pronator teres syndrome		
13	PT Management of Brachial Plexus Palsies	2	2
14	PT Management of Fractures of phalanges	1	2
15	PT Management of Complex Regional Pain Syndrome	1	2
16	PT Management of Upper limb Orthosis and training	2	2
17	Preparation of splints using POP, Orthoplast, thermoplastic	2	2
18	Taping for wrist and hand conditions	1	2
